INDEPENDENT AUDITOR'S REPORT

To The Members of Max Financial Services Limited

Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the accompanying consolidated financial statements of **Max Financial Services Limited** ("the Parent") and its subsidiary, (the Parent and its subsidiary together referred to as "the Group"), which comprise the Consolidated Balance Sheet as at March 31, 2019, and the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Cash Flow Statement and the Consolidated Statement of Changes in Equity for the year then ended, and a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended ("Ind AS") , and other accounting principles generally accepted in India, of the consolidated state of affairs of the Group as at March 31, 2019, and their consolidated profit, their consolidated total comprehensive income, their consolidated cash flows and their consolidated changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit of the consolidated financial statements in accordance with the Standards on Auditing specified under section 143 (10) of the Act (SAs). Our responsibilities under those Standards are further described in the Auditor's Responsibility for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the consolidated financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us and the audit evidence obtained by the auditors of the subsidiary company in terms of their reports referred to in the sub-paragraphs (a) of the Other Matters section below, is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

Sr. No.	Key Audit Matter	Auditor's Response
1.	**Accounting of put options written to Non Controlling Interests (NCI) in Consolidated Financial Statements** **(Refer note 56 of the consolidated financial statements)** During the year ended March 31, 2016, the Group has entered into written Put Option arrangement with Non-Controlling Interests that require Group to purchase certain shares held by Non-Controlling Interests in future. As required under Ind AS, put option granted to Non-Controlling Interest is initially recognised in the consolidated financial statements by the Group as a financial liability at the fair value of the amount that may become payable on exercise of option and is adjusted against the shareholders' equity on April 01, 2017 (date of transition). In the absence of any mandatorily applicable accounting guidance, the Group has elected an accounting policy to recognise changes on subsequent measurement of the liability in shareholders' equity. Considering, the magnitude of fair value amount of the liability recognised towards written put option and election of accounting policy choice, we have considered such matters to be key audit matter.	**Principal Audit Procedures performed:** • Reviewed and analysed the contractual arrangements of the written put option arrangement to understand the key terms and to determine whether the Group's accounting treatment under Ind AS is appropriate. • Obtained an understanding of the Company's process for determining the valuation of written put options. • Tested the design and operating effectiveness of the internal controls on the valuation of the written put options as at the period end. • Assessed the competency, capability and objectivity of the management's valuer. • Tested the mathematical accuracy of the valuation model used. • Involved our internal valuation expert in relation to testing of the appropriateness of the valuation method applied and on sample basis tested the valuation of written put options.
2.	**Policy liabilities** **(In respect of the subsidiary company)** Provisions against life insurance contracts mainly comprise the provision for future policy benefits and the provision for outstanding claims. Valuation of the provision for future policy benefits is necessarily dependent on a number of assumptions. These refer in particular to discount rates, mortality and morbidity assumptions, acquisition and administration expenses, and calculated lapse rates. In accordance with applicable accounting regulations, these assumptions are determined at the start of a contract and are only adjusted if there is a significant deterioration. As the assumptions are generally not observable in the market, the determination or adjustment of these assumptions are subject to uncertainty and judgement	**Principal Audit Procedures performed in respect of subsidiary company:** The auditors of subsidiary company have assessed the Appointed Actuary's calculation of the liabilities by performing the following procedures: • Verified the underlying data to source documentation on a sample basis. • Reconciled the underlying data used by the Actuary with the trial balance and the data obtained from the policy administration system to ensure completeness. • Understood from the Appointed Actuary the assumptions used and the basis for the same to evaluate these assumptions with the available peer details. • Assessed the Company's methodology for calculating the policy liabilities against recognized actuarial practices. • Obtained and reconciled the provision amount with the Appointed Actuary's certificate in this regard. However, auditors of subsidiary company have not audited the actuarial process and computations. These are not covered by audit opinion

Sr. No.	Key Audit Matter	Auditor's Response
3.	**Multiple Information Technology Systems** **(In respect of the subsidiary company)** The subsidiary company is highly dependent on technology due to the significant number of transactions that are processed daily across multiple and discrete Information Technology ("IT") systems. The audit approach relies extensively on automated controls and therefore on the effectiveness of controls over IT systems. IT application controls are critical to ensure that changes to applications and underlying data are made in an appropriate manner. Appropriate controls contribute to mitigating the risk of potential fraud or errors as a result of changes to applications and data. Management is in the process of implementing several remediation activities that are expected to contribute to reducing the risk over IT applications in the financial reporting process. These included implementation of subsidiary company wide preventive and detective controls across critical applications and infrastructure. Due to the pervasive nature, in our preliminary risk assessment we will begin by assessing the risk of a material misstatement arising from technology as significant for the audit.	**Principal Audit Procedures performed in respect of subsidiary company:** The auditors of subsidiary company performed a range of audit procedures, which included the following: Tested access rights over applications, operating systems and databases relied upon for financial reporting. Specifically, the tests were designed to cover the following: - New access requests for joiners are properly reviewed and authorised; - User access rights are removed on a timely basis when an individual has left or moved role; - Periodic monitoring of access rights to applications, operating systems and databases for appropriateness; and - Highly privileged access is restricted to appropriate personnel. Other areas that were assessed included password policies, security configurations, controls over changes to applications and databases and that business users, developers and production support did not have access to change applications, the operating system or databases in the production environment. Other procedures that were carried out are: - Where inappropriate access was identified, the nature of the access was understood, and, where possible, obtain additional evidence on the appropriateness of the activities performed; - Obtained a list of users' access permissions and manually compared it to other access lists where segregation of duties was deemed to be of higher risk.

Information Other than the Financial Statements and Auditor's Report Thereon

- The Parent's Board of Directors is responsible for the other information. The other information comprises the information included in the Board's Report (including annexures thereto), Business Responsibility Statement and Management discussion and analysis (MD&A) (collectively referred to as "other information"), but does not include the consolidated financial statements and our auditor's report thereon.

- Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

- In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated. Other information so far as it relates to the subsidiaries and joint ventures, is traced from their financial statements.

- If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for the Consolidated Financial Statements

The Parent's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these consolidated financial statements that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated cash flows and consolidated changes in equity of the Group in accordance with the Ind AS and other accounting principles generally accepted in India. The respective Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Parent, as aforesaid.

In preparing the consolidated financial statements, the respective Board of Directors of the companies included in the Group are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the management either intends to liquidate or cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group are also responsible for overseeing the financial reporting process of the Group.

Auditor's Responsibility for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Parent has adequate internal financial controls system in place and the operating effectiveness of such controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information entities within the Group to express an opinion on the consolidated financial statements.

Materiality is the magnitude of misstatements in the consolidated financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the consolidated financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the consolidated financial statements.

We communicate with those charged with governance of the Parent and such other entities included in the consolidated financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matters

In respect of Max Life Insurance Company Limited ("MLIC"), a subsidiary company, determination of the following as at year ended March 31, 2019 is the responsibility of the subsidiary's Appointed Actuary.

i. The Actuarial valuation of liabilities for life policies in force and for policies in respect of which premium has been discontinued but liability exists as at March 31, 2019 in respect of the subsidiary. In the opinion of the Appointed Actuary, the assumptions for such valuation are in accordance with the guidelines and norms issued by the Insurance Regulatory and Development Authority of India (IRDAI) and the Institute of Actuaries of India in concurrence with the IRDAI. The charge of "Net Change in Insurance and Investment Contract Liabilities" includes charge for actuarial valuation of liabilities for life policies in force and charge for the policies in respect of which premium has been discontinued but liability exists as at March 31, 2019. These charges have been actuarially determined, based on the liabilities duly certified by the subsidiary's Appointed Actuary; and

ii. Other adjustments for the purpose of preparation of the Statement, as confirmed by the Appointed Actuary of subsidiary are in accordance with Indian Accounting Standard 104 on Insurance Contracts:

a. Assessment of contractual liabilities based on classification of contracts into insurance contracts and investment contracts;

b. Valuation and Classification of Deferred Acquisition Cost and Deferred Origination Fees on Investment Contracts and Valuation of Embedded Derivatives;

c. Grossing up and classification of the Reinsurance Assets; and

d. Liability adequacy test as at the reporting dates.

The auditors of Max Life Insurance Company Limited ("MLIC"), subsidiary company have relied on the certificates of the Appointed Actuary in respect of above matters in forming their opinion on the financial information of the said subsidiary.

Our opinion on the consolidated financial statements above and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matters.

Report on Other Legal and Regulatory Requirements

1. As required by Section 143(3) of the Act, based on our audit we report that:

a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated financial statements.

b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books, returns and the reports of the auditors of the subsidiary company.

c) The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss including Other Comprehensive Income, the Consolidated Cash Flow Statement and the Consolidated Statement of Changes in Equity dealt with by this Report are in agreement with the relevant books of account maintained for the purpose of preparation of the consolidated financial statements.

d) In our opinion, the aforesaid consolidated financial statements comply with the Ind AS specified under Section 133 of the Act.

e) On the basis of the written representations received from the directors of the Parent as on March 31, 2019 taken on record by the Board of Directors of the Parent and the report of the auditors of the subsidiary company, none of the directors of the Group companies is disqualified as on March 31, 2019 from being appointed as a director in terms of Section 164 (2) of the Act.

f) With respect to the adequacy of the internal financial controls over financial reporting and the operating effectiveness of such controls, refer to our separate Report in "Annexure A" which is based on the auditors' reports of the Parent and subsidiary company. Our report expresses an unmodified opinion on the adequacy and operating effectiveness of internal financial controls over financial reporting.

g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended, In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Parent to its directors during the year is in accordance with the provisions of section 197 of the Act.

h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:

i. The consolidated financial statements disclose the impact of pending litigations on the consolidated financial position of the Group – Refer Note 35 of the forming part of consolidated financial statements.

ii. The liability for insurance contracts, is determined by the MLIC's Appointed Actuary, and is covered by the Appointed Actuary's certificate, referred to in Other Matter paragraph above, on which the auditors of the subsidiary company have placed reliance. The Group did not have any material foreseeable losses on long-term contracts including derivative contracts - Refer Note 51 of the notes forming part of consolidated financial statements.

iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Parent and its subsidiary company - Refer Note 52 of the notes forming part of consolidated financial statements.

ANNEXURE "A" TO THE INDEPENDENT AUDITOR'S REPORT

(Referred to in paragraph 1(f) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

In conjunction with our audit of the consolidated financial statements of the Company as of and for the year ended March 31, 2019, we have audited the internal financial controls over financial reporting of **Max Financial Services Limited** (hereinafter referred to as "Parent") and its subsidiary company, which are companies incorporated in India, as of that date.

In respect of Max Life Insurance Company Limited ('MLIC"), a subsidiary company, the actuarial valuation of liabilities for life policies in force and policies where premium is discontinued is required to be certified by the Appointed Actuary as per the Insurance Regulatory and Development Authority (Preparation of Financial Statements and Auditor's Report of Insurance Companies) Regulations, 2002 (the "IRDA Financial Statements Regulations") and has been relied upon by the auditors of the subsidiary company, as mentioned in "Other Matter" para of our audit report on the consolidated financial statements of the Group as at and for the year ended March 31, 2019. Accordingly, the auditors of the subsidiary company have not audited the internal financial controls over financial reporting in respect of the valuation and accuracy of the aforesaid actuarial valuation.

Management's Responsibility for Internal Financial Controls

The respective Board of Directors of the Parent and its subsidiary company, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the respective Companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the Parent and its subsidiary company, which are companies incorporated in India, based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing, prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the auditors of the subsidiary company, which are companies incorporated in India, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting of the Parent and its subsidiary company, which are companies incorporated in India.

Meaning of Internal Financial Controls Over Financial

Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion to the best of our information and according to the explanations given to us and based on the consideration of the reports of the auditors of the subsidiary company referred to in the Other Matters paragraph below, the Parent and its subsidiary company, which are companies incorporated in India, have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2019, based on the criteria for internal financial control over financial reporting established by the respective companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Other Matters

The auditors of Max Life Insurance Company Limited ("MLIC"), a subsidiary company have reported that the actuarial valuation of liabilities for life policies in force and policies where premium is discontinued is required to be certified by the Appointed Actuary as per the Insurance Regulatory and Development Authority (Preparation of Financial Statements and Auditor's Report of Insurance Companies) Regulations, 2002 (the "IRDA Financial Statements Regulations") and has been relied upon by them, as mentioned in "Other Matter" para of our audit report on the consolidated financial statements of the Group as at and for the year ended March 31, 2019. Accordingly, MLIC's auditors have not audited the internal financial controls over financial reporting in respect of the valuation and accuracy of the aforesaid actuarial valuation.

Our aforesaid report under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting insofar as it relates to 1 (one) subsidiary company, which is company incorporated in India, is based solely on the corresponding reports of the auditors of such company incorporated in India.

Our opinion is not modified in respect of the above matters.

Notes forming part of the consolidated financial statements

1. Corporate information

Max Financial Services Limited ('the Company'/'the Parent') is a public limited Company domiciled in India. The shares of the Company are listed on National Stock Exchange (NSE) and BSE Limited (BSE). The Company is primarily engaged in making business investments in its subsidiary and providing management advisory services to the Company companies.

Max Life Insurance Company Limited ('the Subsidiary Company') was incorporated on July 11, 2000 as a public limited company under the Companies Act, 1956 to undertake and carry on the business of life insurance and annuity. The Subsidiary Company obtained a license from the Insurance Regulatory and Development Authority of India ('IRDAI') for carrying on life insurance business on November 15, 2000. The Subsidiary Company offers a range of participating, non participating and linked products covering life insurance, pension and health benefits including riders for individual and group segments. These products are distributed by individual agents, corporate agents, banks, brokers and other channels.

2. Significant accounting policies

2.01 Basis of preparation

(i) **Statement of compliance**

The consolidated financial statements of the Company and the Subsidiary Company (collectively referred to as the 'Group') have been prepared in accordance with the Indian Accounting Standards ('Ind AS') notified under section 133 of the Companies Act, 2013 read with relevant rules issued thereunder and other accounting principles generally accepted in India. Beginning April 1, 2018 the Parent Company has for the first time adopted Ind AS with a transition date of April 1, 2017. The Group presents its financial statements to comply with Division III of Schedule III to the Companies Act, 2013 which provides general instructions for the preparation of financial statements of a non-banking financial company (NBFC to comply with Ind AS) and the requirements of Ind AS.

Upto the year ended 31 March, 2018, the Group prepared its consolidated financial statements in accordance with the requirements of Indian GAAP, which included standards notified under the Companies (Accounting Standards) Rules, 2006. These are the Group's first Ind AS consolidated financial statements. The date of transition to Ind AS is 1 April, 2017. Refer note 2.03 for the details of the first-time adoption exemptions availed by the Group.

(ii) **Basis of preparation and presentation**

The consolidated financial statements have been prepared on the historical cost basis except for certain financial instruments that are measured at fair values at the end of each reporting period, as explained in the accounting policies below.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Group takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these financial statements is determined on such a basis, except for share-based payment transactions that are within the scope of Ind AS 102, leasing transactions that are within the scope of Ind AS 17, and measurements that have some similarities to

Notes forming part of the consolidated financial statements

fair value but are not fair value, such as net realisable value in use in Ind AS 36.

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2, or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the assets or liability. The financial statements have been prepared on the historical cost basis except for certain financial instruments that are measured at fair values at the end of each reporting period, as explained in the accounting policies below.

As permitted by Ind AS 104 Insurance Contracts, the Subsidiary Company continues to apply the existing accounting policies that were applied prior to the adoption of Ind AS, with certain modifications allowed by the standard subsequent to adoption for its insurance contracts and investment contracts with a discretionary participation feature (DPF).

For all periods up to and including the year ended March 31, 2019, the Subsidiary Company prepared its financial statements in accordance with the accounting standards notified under the section 133 of the Companies Act 2013, read together with paragraph 7 of Companies (Accounts) Rules, 2014 (Indian GAAP or previous GAAP) and as amended from time to time and IRDAI regulations to such extent.

These consolidated financial statements are the first financial Statements of the Group under Ind AS. Refer note 45 for an explanation of how the transition from previous GAAP to Ind AS has affected the Group's financial position and financial performance.

The financial statements are presented in INR and all values are rounded to the nearest lakhs, except when otherwise indicated.

As per the Insurance Act, 1938, (as amended by Insurance Laws (Amendment) Act, 2015) (the "Insurance Act"):

i. A life insurer is required to carry all receipts due in respect of such business, into a separate fund to be called the life insurance fund. The assets of the life insurance fund are required to be kept distinct and separate from all other assets of the insurer and the deposit made by the insurer in respect of life insurance business is deemed to be part of the assets of such fund. [Section 10(2)].

ii. The life insurance fund is absolutely the security of the life policyholders as though it belonged to an insurer carrying on no other business than life insurance business. The life insurance fund would not be liable for any contracts of the insurer for which it would not have been liable had the business of the insurer been only that of life insurance. Also, the life insurance fund is not to be applied directly or indirectly for any purposes other than those of the life insurance business of the insurer [Section 10(3)].

On account of the above regulatory restrictions on transfer of surplus / funds from the life

Notes forming part of the consolidated financial statements

insurance fund to shareholders, no proportion of the surplus relating to life insurance fund (including in respect of contracts without discretionary participating features) arising out of the adjustments due to application of Ind AS principles can be attributed to shareholders. Under the Previous GAAP fair valuation changes relating to the life insurance fund assets is accumulated within the liability group "Policyholders' Funds" in a line item labelled "Credit / (Debit) Fair Value Change Account" separately from "Policy Liabilities", "Insurance Reserves" and "Provision for Linked Liabilities". Therefore the differences arising from the application of the Ind AS principles to the assets and liabilities of the life insurance fund be retained within the "Life Insurance Policyholders' Fund" liability group as "Fair Valuation Differences of Policyholders' Investments", "Measurement difference of Ind AS 104 Adjustments" and "Measurement difference – Other Adjustments".

Further all assets, liabilities, income and expenses pertaining to the life insurance fund have been grouped under "Assets of life insurance fund", "Liabilities of Life insurance fund", "Income from life insurance operations" and "Expense of the life insurance operations" respectively.

2.02 Principles of Consolidation

The Consolidated financial statements comprise the financial statements of the Company and its subsidiary as at 31 March, 2019. The Company has one Subsidiary Company in India, Max Life Insurance Company Limited. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Group controls an investee if and only if the Group has:

a. Power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee)

b. Exposure, or rights, to variable returns from its involvement with the investee, and

c. The ability to use its power over the investee to affect its returns

The Group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated financial statements from the date the Group gains control until the date the Group ceases to control the subsidiary. The Consolidated financial statements have been prepared using uniform accounting policies for like transactions and other events in similar circumstances and are presented, to the extent possible, in the same manner as the Company's separate financial statements. The accounting policies of the subsidiary are, in all material respects, in line with accounting policies of the Company.

The financial statements of the Subsidiary Company for the purpose of consolidation are drawn up to same reporting date as that of the Parent Company, i.e. year ended on 31 March.

Consolidation procedures:

a. The financial statements of the Company and its subsidiary company are consolidated on line-by-line basis adding together the book value of assets, liabilities, equity, income, expenses and cash flows of the parent with its subsidiary. For this purpose, income and expenses of the subsidiary are based on the amounts of the assets and liabilities recongised in the consolidated financial statements as at the acquisition date.

b. Offset (eliminate) the carrying amount of the

Notes forming part of the consolidated financial statements

parent's investment in each subsidiary and the parent's portion of equity of each subsidiary.

c. Eliminate in full, intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between entities of the group (profits or losses resulting from intragroup transactions that are recongised in assets, such as inventory and fixed assets, are eliminated in full). Intragroup losses may indicate an impairment that requires recognition in the consolidated financial statements. Ind AS 12 Income Taxes applies to temporary differences that arise from the elimination of profits and losses resulting from intragroup transactions.

Profit or loss and each component of other comprehensive income (OCI) are attributed to the equity holders of the parent of the Group and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. When necessary, adjustments are made to the financial statements of subsidiary to bring their accounting policies into line with the Group's accounting policies. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction. If the Group loses control over a subsidiary, it:

a. Derecognises the assets (including goodwill) and liabilities of the subsidiary.

b. Derecognises the carrying amount of any non-controlling interests.

c. Derecognises the cumulative translation differences recorded in equity.

d. Recognises the fair value of the consideration received.

e. Recognises the fair value of any investment retained.

f. Recognises any surplus or deficit in profit or loss.

g. Reclassifies the parent's share of components previously recongised in OCI to profit or loss or retained earnings, as appropriate, as would be required if the Group had directly disposed of the related assets or liabilities.

2.03 **First-time adoption – mandatory exceptions, optional exemptions**

Overall principle

The Group has prepared the opening balance sheet as per Ind AS as of 01 April, 2017 (the transition date) by recognising all assets and liabilities whose recognition is required by Ind AS, not recognising items of assets or liabilities which are not permitted by Ind AS, by reclassifying items from previous GAAP to Ind AS as required under Ind AS, and applying Ind AS in measurement of recognised assets and liabilities. However, this principle is subject to certain exceptions and certain optional exemptions availed by the Group as detailed below.

Accounting for changes in parent's ownership in a subsidiary that does not result in a loss of control

The Group has accounted for changes in a parent's ownership in a subsidiary that does not result in a loss of control in accordance with Ind AS 110, prospectively from the date of transition.

Impairment of financial assets

The Group has applied the impairment requirements of Ind AS 109 retrospectively; however, as permitted by Ind AS 101, it has used reasonable and supportable information that is available without undue cost or effort to determine the credit risk at the date that financial instruments were initially recognised in order to compare it with the credit risk at the transition date. Further, the Group has not undertaken an exhaustive search for information when determining, at the date of transition to Ind ASs, whether there

Notes forming part of the consolidated financial statements

have been significant increases in credit risk since initial recognition, as permitted by Ind AS 101.

Assessment of embedded derivatives

The Group has assessed whether an embedded derivative is required to be separated from the host contract and accounted for as a derivative on the basis of the conditions that existed at the later of the date it first became a party to the contract and the date when there has been a change in the terms of the contract that significantly modifies the cash flows that otherwise would be required under the contract.

Share-based payments

The Group has elected not to apply Ind AS 102 Share-Based Payment, to equity instruments that vested prior to the date of transition to Ind AS.

Deemed cost for property, plant and equipment, and intangible assets

The Group has elected to continue with the carrying value of all of its property, plant and equipment, and intangible assets recognised as of 01 April, 2017 (transition date) measured as per the previous GAAP and use that carrying value as its deemed cost as of the transition date.

Determining whether an arrangement contains a lease

The Group has applied Appendix C of Ind AS 17 'Determining whether an Arrangement contains a Lease' to determine whether an arrangement existing at the transition date contains a lease on the basis of facts and circumstances existing at that date.

Treatment of exchange differences

The exchange differences arising on settlement / restatement of long-term foreign currency monetary items are accounted for in Statement of Profit and Loss.

The Group has availed the exemption and continues the policy adopted for accounting for exchange differences arising from translation of long-term foreign currency monetary items recognised in the financial statements for the period ending immediately before the beginning of the first Ind AS financial reporting period as per the previous GAAP, i.e 31 March, 2018.

Fair Value measurement of financial assets and financial liabilities

Under Ind AS 109, if an entity measures a financial instrument on initial recognition based on valuation techniques that only use observable market data or current market transactions in the same instrument, and the fair value at initial recognition is different from the transaction price, then it is required to recognise the 'day one' gain or loss at initial recognition of this financial instrument. Ind AS 101 allows an entity to apply the 'day one' gain or loss recognition requirement of Ind AS 109 prospectively to transactions entered into on or after the date of transition to Ind AS.

The Group has opted for this exemption to recognise the 'day one' gain or loss on initial recognition arising due to difference in transaction cost and fair value prospectively for transactions entered into on or after the date of transition to Ind AS.

Classification of financial assets

Ind AS 109 requires a financial asset to be measured at amortised cost if it meets two tests that deal with the nature of the business that holds the assets and the nature of the cash flows arising on those assets. A first-time adopter must assess whether a financial asset meets the conditions on the basis of the facts and circumstances that exist at the date of transition to Ind AS.

Ind AS 101 also contains mandatory exception related to classification of financial asset which states that conditions for classifying financial assets to be tested on the basis of facts and circumstances existing at the date of transition to Ind AS instead of the date on which it becomes party to the contract.

The Group has opted to classify all financial assets

Notes forming part of the consolidated financial statements

and liabilities based on facts and circumstances existing on transition date.

Derecognition of financial assets and financial liabilities

As per Ind AS 101 – An entity shall apply the exception to the retrospective application in case of "Derecognition of financial assets and financial liabilities" wherein a first-time adopter shall apply the Derecognition requirements in Ind AS 109 prospectively for transactions occurring on or after the date of transition to Ind ASs. For example, if a first time adopter derecognised non-derivative financial assets or non-derivative financial liabilities in accordance with its previous GAAP as a result of a transaction that occurred before the date of transition to Ind ASs, it shall not recognise those assets and liabilities in accordance with Ind ASs (unless they qualify for recognition as a result of a later transaction or event).

The Group has elected to apply the de-recognition provisions of Ind AS prospectively from the date of transition to Ind AS.

Estimates

The estimates at April 01, 2017 and at March 31, 2018 are consistent with those made for the same dates in accordance with Indian GAAP (after adjustments to reflect any differences in accounting policies) apart from the following items where application of Indian GAAP did not require estimation:

a. FVPTL / FVOCI – equity and debt instrument

b. Impairment of financial assets based on expected credit loss model

c. Valuation of Insurance and Investment contract liabilities; and

d. Valuation of Reinsurance Asset

The estimates used by the Group to present these amounts in accordance with Ind AS reflect conditions at April 01, 2017, the date of transition to Ind AS and as of March 31, 2018.

2.04 **Product classification**

Insurance contracts are those contracts when the Group has accepted significant insurance risk from the policyholders by agreeing to compensate the policyholders if a specified uncertain future event (the insured event) adversely affects the policyholders. The Group determines whether the contract has significant insurance risk, by comparing benefits payable on death is higher by at least 5% of the fund value at any time during the term of the contract for unit linked products or higher by at least 5% of the premium at any time during the term of the contract for other than unit linked products. Investment contracts are those contracts that transfer significant financial risk and which do not carry significant insurance risk.

Financial risk is the risk of a possible future change in one or more of a specified interest rate, financial instrument price, index of price or rates, credit rating or credit index or other variable, provided in the case of a non-financial variable that the variable is not specific to a party to the contract.

Once a contract has been classified as an insurance contract, it remains an insurance contract for the remainder of its lifetime, even if the insurance risk reduces significantly during this period, unless all rights and obligations are extinguished or expire. Investment contracts are further classified as being either with or without discretionary participation features (DPF). DPF is a contractual right to receive, as a supplement to guaranteed benefits, additional benefits that are:

- Likely to be a significant portion of the total contractual benefits,
- The amount or timing of which is contractually at the discretion of the issuer, and
- That are contractually based on the:
  - o performance of a specified pool of contracts or a specified type of contract,

Notes forming part of the consolidated financial statements

- o realised and/or unrealised investment returns on a specified pool of assets held by the issuer, or
- o the profit or loss of the company, fund or other entity that issues the contract.

For financial options and guarantees which are not closely related to the host insurance contract and/or investment contract with DPF, bifurcation is required to measure these embedded financial derivatives separately at fair value through the income statement. However, bifurcation is not required if the embedded derivative is itself an insurance contract and/or investment contract with DPF, or if the host insurance contract and/or investment contract itself is measured at fair value through the income statement. The Group has considered the probable embedded derivatives in the products offered and have calculated the value for embedded derivative separately for reporting under Ind AS 104 as at 31 March 2019.

2.05 Premium Income

The premium income for insurance contract and investment contract with discritionary participation feature (DPF) is recognised as revenue when due from policyholders. For linked business, premium income is recognised when the associated units are created. Premium on lapsed policies is recognised as income when such policies are reinstated. Top-up premiums are recognised as single premium.

For investment contract without DPF, deposit accounting in accordance with Ind AS 104 and Ind AS 109 is followed. Consequently only to the extent of charges and fees collected from such investment contract is accounted as income in statement of profit and loss.

2.06 **Income From Linked Policies**

Income on linked policies including fund management charges, policy administration charges, surrender penalty charges, mortality charges, and other charges, wherever applicable, are recovered from the linked fund and recognised when due in accordance with the terms and conditions mentioned in the policies.

2.07 Reinsurance Premium Ceded

Reinsurance premium ceded is accounted for at the time of recognition of premium income in accordance with the treaty or in-principle arrangement with the reinsurer.

2.08 Income from services

Revenue from shared services contracts are recognised over the period of the contract as and when services are rendered.

2.09 **Acquisition Costs**

Acquisition costs include expenses which are incurred to solicit and underwrite insurance contracts such as commission, medical fee, policy printing expenses, etc. These costs are expensed in the year in which they are incurred for insurance contract and investment contract with DPF. In case of investment contract without DPF, the acquisition costs are deferred as per policy mentioned in Note 2.14. Claw back of the commission paid, if any, is accounted for in the year in which it becomes recoverable.

2.10 **Benefits and Claims**

Gross benefits and claims for life insurance contracts and for investment contracts with DPF include the cost of all claims arising during the period including settlement of claims and policyholder bonuses declared. Death claims and surrenders are recorded on the basis of intimation received. Maturities and annuity payments are recorded when due.

2.11 **Reinsurance Claims**

Reinsurance claims is accounted for in the same period as the related claim and also in accordance with the treaty or in- principle arrangement with the reinsurer.

Notes forming part of the consolidated financial statements

2.12 **Life Insurance Contract Liability (including investment contract liabilities with DPF)**

The actuarial liability for policies in-force as at the valuation date is determined using appropriate methods and assumptions that conform to the regulations issued by the IRDAI and the Actuarial Practice Standards (APS) issued by the Institute of Actuaries of India (IAI). Specifically, the key principles considered for the valuation relate to the IRDA (Assets, Liabilities and Solvency Margin of Life Insurance Business) Regulations, 2016 and the APS 1, APS 2 and APS 7 issued by the IAI.

The liability, valued on a policy by policy basis, is so calculated that together with future premium payments and investment income, the Group is able to meet all future claims (including bonus entitlements to policyholders, if applicable) and expenses, on the basis of actuarial estimates.

A brief description of the methodology used for valuing key categories of products is provided below:

1. The liability for individual non-linked business is valued using gross premium reserving methodology. For participating business, a reference is also made to the asset share of the policies as at the valuation date in order to appropriately allow for policyholders' reasonable expectations. The liability is floored to zero or the surrender value payable under the policies, if any.

2. The liability for individual (and group) unit linked business comprises of a unit reserve. Unit reserve represents the value of units using the net asset value at the valuation date.

3. The liability for group one year renewable term business is calculated using an unearned premium approach where the premium representing the unexpired policy term is held as a liability. For longer term group business, gross premium reserving methodology is used.

4. The liability for riders attached to a non-linked policy is calculated as higher of gross premium reserves and unearned premium reserves.

The liabilities above also allow (either explicitly or implicitly) for any cost of guarantees/options inherent in the products.

The regulations also require the insurers to hold certain additional reserves. The key additional reserves cover the following sources of liability:

1. Additional source of liability for policies which are lapsed as at the valuation date but represent a potential source of future liability if they revive within their revival period (generally termed as lapse revival reserves). The reserves are calculated using an assumption of revival probability, based on Group experience.

2. Additional source of liability for policies which may exercise their option of cancelling the policy within the free look period offered (generally termed as free look cancellation reserves). The reserves are calculated using an assumption of free look cancellation, based on Group experience.

3. Liability against policies for which the insured event has already occurred but the claim has not been reported to the Group (generally termed as Incurred but Not Reported reserves).

2.13 **Valuation of Investment Contract Liabilities without DPF:**

Unitised investment contract fair values are determined by reference to the values of the assets backing the liabilities, which are based on the value of the unit-linked fund.

2.14 **Deferred Acquisition Cost (DAC)/ Deferment Origination Fees (DOF)**

Certain incremental acquisition costs that are directly attributable to securing an investment contract without DPF are deferred and recorded in deferred expenses. These deferred costs are amortised over the period in which the service is provided. The DAC

Notes forming part of the consolidated financial statements

has following components:

Initial (1st, 2nd and 3rd year) commission is higher than the remaining year's commission for these products. The differences between these commissions are spread over the whole term of the policy and the commission for unexpired term of the policy as on Balance sheet date is considered.

I. First year distribution allowance is spread over the whole term of the policy and the allowance for the unexpired term of the policy as on Balance sheet date is considered.

DAC are derecognised when the related contracts are either settled or disposed off.

Similar to above calculation the Group has also calculated Deferment Origination Fees (DOF) to be taken as liability.

The DOF for the same products has following component:

Initial (1st, 2nd and 3rd year) allocation charges are higher than the remaining year's allocation charges for these products. The difference between these charges are spread over the whole term of the policy and the charges for the unexpired term of the policy as on Balance sheet date is considered.

DOF are derecognised when the related contracts are either settled or disposed off.

2.15 **Reinsurance Asset**

The reinsurance credit taken, i.e. difference between gross reserves and net reserves, while calculating statutory reserves is held as reinsurance asset.

The Group cedes insurance risk in the normal course of business for all of its businesses.

2.16 **Liability Adequacy Test (LAT)**

For liability reporting as at 31 March 2019 under Ind AS 104, the gross liability would be same as gross liability used for statutory reporting. These liabilities as calculated on Gross Premium Valuation basis where the best estimate assumptions were in-line with the experience as at 31 March 2019. On top of it the liabilities were calculating using Margin for Adverse Deviation (MAD) on best estimate assumptions which are equal to or on higher side than prescribed by the regulations/professional guidance hence there is no need to perform Liability Adequacy Test separately as at 31 March 2019.

The Group applies MAD for the following key assumptions in actuarial valuation of liabilities:

I. Mortality/Morbidity/Longevity
II. Lapse/Surrender/Paid-up/Partial-Withdrawal
III. Interest rate
IV. Expenses

2.17 **Income from investments**

Interest income on investments is recognized on accrual basis. Amortization of discount/ premium relating to the debt securities and money market securities is recognized over the remaining maturity period on an Effective Interest Rate (EIR) method. Dividend income is recognized on ex-date when right to receive payment is established.

The realised profit/loss on debt/money market securities for amortised security is the difference between the net sale consideration and the amortised cost of securities.

Profit or loss on sale/redemption of securities classified as Fair value through other comprehensive income is recognized on trade date basis and includes effects of accumulated fair value changes, previously recognized and credited to other comprehensive income, for investments sold/redeemed during the period.

Profit or loss on sale/redemption of securities classified as Fair value through profit or loss is recognized on trade date basis and includes effects of accumulated fair value changes for investments sold/redeemed during the period.

Notes forming part of the consolidated financial statements

2.18 Income earned on loans

Interest income on loans is recognised on an accrual basis are per Effective Interest Rate (EIR). Fees and charges also include policy reinstatement fees and loan processing fees which are recognised on receipt basis.

2.19 Financial Instrument - Investments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Initial recognition and measurement

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset. Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date that the Group commits to purchase or sell the asset.

Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in three categories:

i. Debt instruments at amortised cost

A 'debt instrument' is measured at the amortised cost if both the following conditions are met:

a. The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and

b. Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the profit or loss. Expected Credit Losses (ECL)s are recognised in the statement of profit or loss when the investments are impaired.

ii- Debt instruments at fair value through other comprehensive income (FVTOCI)

A 'debt instrument' is classified as FVTOCI if both of the following criteria are met:

a. The objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets, and

b. The asset's contractual cash flows represent SPPI.

Debt instruments included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognized in the other comprehensive income (OCI). However, the Group recognizes interest income, impairment losses & reversals in the profit or loss. On de-recognition of the asset, cumulative gain or loss previously recognised in OCI is reclassified to profit or loss. Interest earned on FVTOCI debt instrument is reported as interest income using the EIR method.

iii. Financial instruments at fair value through profit or loss (FVTPL)

Items at fair value through profit or loss comprise:

a. items held for trading;

Notes forming part of the consolidated financial statements

b. debt instruments with contractual terms that do not represent solely payments of principal and interest.

Financial instruments held at fair value through profit or loss is initially recognised at fair value, with transaction costs recognised in the income statement as incurred. Subsequently, they are measured at fair value and any gains or losses are recognised in the income statement as they arise.

De-recognition of Financial Assets

On de-recognition of a financial asset in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain or loss that had been recognised in other comprehensive income and accumulated in equity / "Non financial liabilities of the life insurance fund" is recognised in profit and loss if such gain or loss would have otherwise been recognised in profit or loss on disposal of that financial assets.

2.20 Impairment of financial assets:

In accordance with Ind AS 109, the Group applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure:

a. Financial assets that are debt instruments, and are measured at amortised cost except for government security as no credit exposure is considered for such securities.

b. Financial assets that are debt instruments and are measured as at FVTOCI except for government security as no credit exposure is considered for such securities.

For recognition of impairment loss on financial assets and risk exposure, the Group determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognising impairment loss allowance based on 12-month ECL.

Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The 12-month ECL is a portion of the lifetime ECL which results from default events that are possible within 12 months after the reporting date.

ECL impairment loss allowance (or reversal) recognised during the period is recognised as income/ expense in the Statement of Profit and Loss. This amount is reflected under the head 'Impairment on financial instruments' in the Statement of Profit and Loss.

2.21 Financial liabilities

a. **Gross obligation over written put options issued to the non-controlling interests:**

The Parent Company has issued written put option to non-controlling interests in it's subsidiary in accordance with the terms of underlying shareholders agreement. Should the option be exercised, the Parent Company has to settle such liability by payment of cash.

Initial recognition:

The amount that may become payable under the option on exercise is recognised as a financial liability at its present value with a corresponding charge directly to the shareholders' equity.

Subsequent measurement:

In the absence of any mandatorily applicable accounting guidance, the Group has elected an accounting policy to recognise changes on subsequent measurement of the liability in shareholders' equity.

Notes forming part of the consolidated financial statements

b. **Other financial liabilities**

Initial recognition and measurement

The Group's financial liabilities include investment contracts without DPF and trade and other payables. Financial liabilities are classified at initial recognition, as financial liabilities at FVTPL or payables. All financial liabilities are recognised initially at fair value.

Subsequent measurement - Financial liabilities at FVTPL

Financial liabilities at FVTPL includes financial liabilities held for trading and financial liabilities designated upon initial recognition as at FVTPL.

Subsequent measurement - Trade and other payables

After initial recognition, trade and other payables are subsequently measured at amortised cost. Gains and losses are recognised in profit or loss when the liabilities are derecognized.

De-recognition of financial liabilities

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a de-recognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts is recognised in the statement of profit or loss.

2.22 Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the statement of financial position if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

2.23 Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either in the principal market for the asset or liability or in the absence of a principal market, in the most advantageous market for the asset or liability. The principal or the most advantageous market must be accessible by the Group.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets, liabilities and equity items for which fair value is measured in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole.

Level 1 – Quoted (unadjusted) market prices in active markets for identical assets or liabilities

Level 2 – Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable

Notes forming part of the consolidated financial statements

Level 3 – Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are measured at fair value in the financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

2.24 Cash and cash equivalents

Cash and cash equivalents for the purpose of cash flow statement includes cash in hand, bank balances, deposits with banks, other short-term highly liquid investments with original maturities of upto three months and which are subject to insignificant risk of change in value.

2.25 Cash flow statement

Cash flows are reported using indirect method, whereby Profit/(loss) after tax reported under Statement of Profit and loss is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Group are segregated based on available information.

2.26 **Segment information**

The Group determines reportable segment based on information reported to the Chief Operating Decision Maker (CODM) for the purposes of resource allocation and assessment of segmental performance. The CODM evaluates the Group's performance and allocates resources based on an analysis of various performance indicators by business segments. The accounting principles used in the preparation of the financial statements are consistently applied to record revenue and expenditure in individual segments.

The Group allocates geographical revenue on the basis of location of the customers and non-current assets on the basis of the location of the assets.

2.27 Earnings per share

Basic earnings per share is computed by dividing the profit / (loss) after tax (including the post tax effect of exceptional items, if any) by the weighted average number of equity shares outstanding during the year. Diluted earnings per share is computed by dividing the profit / (loss) after tax (including the post tax effect of exceptional items, if any) as adjusted for dividend, interest and other charges to expense or income (net of any attributable taxes) relating to the dilutive potential equity shares, by the weighted average number of equity shares considered for deriving basic earnings per share and the weighted average number of equity shares which could have been issued on the conversion of all dilutive potential equity shares. Potential equity shares are deemed to be dilutive only if their conversion to equity shares would decrease the net profit per share from continuing ordinary operations. Potential dilutive equity shares are deemed to be converted as at the beginning of the period, unless they have been issued at a later date. The dilutive potential equity shares are adjusted for the proceeds receivable had the shares been actually issued at fair value (i.e. average market value of the outstanding shares). Dilutive potential equity shares are determined independently for each period presented. The number of equity shares and potentially dilutive equity shares are adjusted for employee share options and bonus shares, if any, as appropriate.

2.28 Leases

Group as a lessee

The determination of whether an arrangement is (or contains) a lease is based on the substance of the arrangement at the inception of the lease. The arrangement is, or contains, a lease if fulfilment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset or assets, even if that right is not explicitly specified in an arrangement.

Notes forming part of the consolidated financial statements

Operating lease payments are recognised as an expense in the statement of profit and loss on a straight-line basis over the lease term, unless the increase is in line with expected general inflation.

Group as a lessor

Leases where the Group does not transfer substantially all of the risk and benefits of ownership of the asset are classified as operating leases. Rental income arising from operating leases is recognized based on contractual terms in the statement of profit or loss. Initial direct costs incurred in negotiating operating leases are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income.

2.29 Property, plant and equipment and Intangible assets:

The Group has elected to consider values of Property, plant and equipment and Intangible assets as deemed cost as of the Previous GAAP. Accordingly, the Group has not revalued the Property, plant and equipment and Intangible assets at April 01, 2017 again. The Group consider the fair value as deemed cost at the transition date, viz., April 01, 2017.

Capital work in progress, plant and equipment is stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. When significant parts of plant and equipment are required to be replaced at intervals, the Group depreciates them separately based on their specific useful lives. Likewise, when a major inspection is performed, its cost is recognised in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognised in profit or loss as incurred.

Assets individually costing upto rupees five thousand and not as part of a composite contract are fully depreciated in the month of acquisition. Fixed assets at third party locations and not under direct physical control of the Group are fully depreciated over twelve months from the month of purchase.

Gains or losses arising from de-recognition of fixed assets and intangibles are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the profit or loss when the asset is derecognized.

Depreciation on Property, plant and equipment has been provided on the straight line method as per the useful life prescribed in Schedule II to the Companies Act, 2013 in respect of the following categories of assets

Depreciation on Property, plant and equipment, in respect of the following categories of assets, has been provided on the straight-line method as per the useful life of the assets which has been assessed taking into account the nature of the asset, the estimated usage of the assets the operating conditions of the asset, past history of replacement, etc.:

Leasehold land is amortised over the renewable period of respective leases subject to a maximum of 10 years.

Intangible assets are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less any accumulated amortisation and any accumulated impairment losses. Internally generated intangibles, excluding capitalised development costs, are not capitalised and the related expenditure is reflected in statement of profit or loss in the year in which the expenditure is incurred.

Intangible assets are amortised over their estimated useful life on straight line method as follows:

Assets	Estimated useful life
Software (excluding Policy Administration System and Satellite systems	4 years
Policy Administration Systerm and Satellite Systems	6 years

The residual values, useful lives and methods of depreciation of property, plant and equipment and intangibles are reviewed at each financial year end

Notes forming part of the consolidated financial statements

and adjusted prospectively, if appropriate.

Impairment of Assets

The management assesses as at balance sheet date, using external and internal sources, whether there is an indication that an asset may be impaired. Impairment loss occurs where the carrying value exceeds the present value of future cash flows expected to arise from the continuing use of the asset and its eventual disposal. After impairment, depreciation is provided on the revised carrying amount of the assets over its remaining useful life.

If at the balance sheet date there is an indication that a previously assessed impairment loss no longer exists, the recoverable amount is reassessed and the asset is reflected at the recoverable amount, subject to a maximum of depreciable historical cost. Such reversal is reflected in the statement of profit and loss.

2.30 Retirement and other employee benefits:

a. **Short Term Employee Benefits**

All employees' benefits payable within twelve months including salaries & bonuses, short term compensated absences and other benefits like insurance for employees are accounted on undiscounted basis during the accounting period in which the related services are rendered.

b. **Post-Employment Benefits**

Defined contribution plans

The Group's contributions towards Provident Fund, a defined contribution plan, which is administered through a trust, is at the rate as notified and charged to the profit or loss account.

Defined benefit plans

The Group's contributions towards Provident Fund, a defined benefit plan, which is administered through a trust, is at the rate as notified and charged to the profit and loss account.

The Group's liability towards Gratuity, Long Term Incentive Plan and Compensated Absences being defined benefit plans, is accounted for on the basis of independent actuarial valuations carried out as per 'Projected Unit Credit Method' at the balance sheet date. Actuarial gains / losses related thereof are recognized in the other comprehensive income (OCI).

Re-measurements, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are recognised immediately in the balance sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur.

c. **Other Long Term Employee Benefits**

Other long term employee benefits includes accumulated long term compensated absences and long term incentive plans. Accumulated long term compensated absences are entitled to be carried forward for future encashment or availment, at the option of the employee subject to Group's policies. Accumulated long term compensated absences are accounted for based on actuarial valuation determined using the projected unit credit method. Long term incentive plans are subject to fulfillment of criteria prescribed by the Group and is accounted for on the basis of independent actuarial valuations at the balance sheet date.

2.31 Share-based payment arrangements

The Parent Company has constituted an Employee Stock Option Plan - 2003 for equity settled share based payment transactions. Employee Stock Options granted on or after 1 April, 2005 are

Notes forming part of the consolidated financial statements

measured at the fair value of the equity instruments at the grant date. The Scheme provides for grant of options to employees (including directors) to acquire equity shares of the Parent Company that vest in a graded manner and that are to be exercised within a specified period.

The fair value determined at the grant date of the equity-settled share-based payments is expensed on a straight-line basis over the vesting period, based on the Parent Company's estimate of equity instruments that will eventually vest, with a corresponding increase in equity. At the end of each reporting period, the Parent Company revises its estimate of the number of equity instruments expected to vest. The impact of the revision of the original estimates, if any, is recognised in profit or loss such that the cumulative expense reflects the revised estimate, with a corresponding adjustment to the equity-settled employee benefits reserve.

Equity-settled share-based payment transactions with parties other than employees are measured at the fair value of the goods or services received, except where that fair value cannot be estimated reliably, in which case they are measured at the fair value of the equity instruments granted, measured at the date the entity obtains the goods or the counterparty renders the service.

The Group had constituted a Phantom Stock option plan in 2016, to be settled in cash. The Group is required to make provisions for estimated cash requirement for settlement on the basis of Fair Market Value of equity shares of the Parent Company, Max India Limited and Max Ventures and Industries Limited as at end of each financial period/year till the estimated life of phantom stocks. As and when any cash payment is made on account of settlement of phantom stock, the provision is accordingly adjusted.

For cash-settled share-based payments, a liability is recognised for the goods or services acquired, measured initially at the fair value of the liability. At the end of each reporting period until the liability is settled, and at the date of settlement, the fair value of the liability is remeasured, with any changes in fair value recognised in profit or loss for the year.

2.32 **Provisions, Contingent Liabilities and Contingent Assets**

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

The Group does not recognize a contingent liability but discloses its existence in the financial statements. Contingent liability is disclosed in the case of:

a. It is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation

b. A present obligation arising from past events, when no reliable estimate is possible

c. A possible obligation arising from past events, unless the probability of outflow of resources is remote

Contingent liabilities are reviewed at each balance sheet date.

Contingent assets are not recognised. A contingent asset is disclosed, as required by Ind AS 37, where an inflow of economic benefits is probable.

2.33 Real Estate-Investment Property

The investment property is measured at historical cost. The Group assess at each balance sheet date whether any impairment of the investment property has occurred. Any impairment loss is recognised in the Statement of Profit and Loss.

Notes forming part of the consolidated financial statements

Investment property is amortised over their estimated useful life on straight line method as follows:

Assets	Estimated useful life
Buildings	60 years

2.34 Valuation of Derivative Instrument

Interest rate swaps are contractual agreements between two parties to exchange fixed rate and floating rate interest by means of periodic payments, calculated on a specified notional amount and defined interest rates. Interest payments are netted against each other, with the difference between the fixed and floating rate payments paid by one party.

For cash flow hedges, a forecast transaction that is the subject of the hedge must be highly probable and must present an exposure to variations in cash flows that could ultimately affect Profit or loss.

Carrying amount to be determined as present value of fixed rate minus floating rate interest on the notional. The discounting rates will be obtained through Bloomberg, Reuters or any other published source.

Hedge effectiveness testing is a ratio of change in fair value of hedged item and the hedging instrument.

Changes in the fair value of the contracts that are designated and effective as hedges of future cash flows are recognised in other comprehensive income and the ineffective portion is recognised in the Statement of Profit and Loss.

As per the risk management policy of the Group, ratio between 0.8-1.25 represents the hedge to be effective. Offset ratio <0.8 or >1.25 represents the hedge to be ineffective and the entire MTM amount is charged to profit & loss account.

2.35 Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

Direct Taxes

Income Tax expense comprises of current tax and deferred tax charge or credit, as applicable. Current income tax is measured at the amount expected to be paid to the tax authorities in accordance with the provisions of Section 44 of the Income Tax Act, 1961 read with Rules contained in the First Schedule and other relevant provisions of the Income Tax Act, 1961 as applicable to a company carrying on life insurance business.

Deferred tax is provided on temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are reassessed at each reporting date and are recognised to the extent that it becomes probable that future taxable profit will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Current and deferred taxes are recognised as income tax benefits or expenses in the income statement except for tax related to the fair value re-measurement of financial assets classified as FVOCI and the net movement on cash flow hedges, which are charged or credited to OCI. These exceptions are subsequently reclassified from OCI to the income statement together with the respective deferred loss or gain. The Group only off-sets its deferred tax assets against liabilities when there is both a legal enforceable right to offset and it is the Group's intention to settle on a net basis.

Notes forming part of the consolidated financial statements

Indirect Taxes

The Group claims credit of Service Tax/Goods and Service Tax (GST) on input goods and services, which is set off against tax on output services/goods. As a matter of prudence, unutilized credits towards Goods and Service Tax/Service Tax on input services/goods are carried forward under Advances & Other Assets wherever there is reasonable certainty of utilization.

2.36 **Loans**

Loans against policies are valued at amortised cost i.e. aggregate of book values (net of repayments) plus capitalized interest, subject to provision for impairment, if any.

2.37 **Foreign exchange transactions**

At the time of Initial recognition, foreign currency transactions are recorded in Indian Rupees at the rate of exchange prevailing on the date of the transaction. Exchange gain & losses are recognised in the period in which they arise in the Profit & Loss Account.

2.38 **Significant Accounting Judgment and Estimates**

The preparation of the financial statements is in conformity with the Ind AS that requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities as at the date of the financial statements, and the reported amounts of revenue and expenses during the year. The estimates and assumptions used in the accompanying financial statements are based upon management's evaluation of the relevant facts and circumstances upto and as of the date of the financial statements. Actual results could differ from the estimates. Any revision to accounting estimates is recognized prospectively in current and future periods.

In the process of applying the accounting policies, management has made the following judgements, which have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

a. **Business model assessment**

Classification and measurement of financial assets depends on the results of the SPPI and the business model test. The Group determines the business model at a level that reflects how groups of financial assets are managed together to achieve a particular business objective. This assessment includes judgement reflecting all relevant evidence including how the performance of the assets is evaluated and their performance measured, the risks that affect the performance of the assets and how these are managed and how the managers of the assets are compensated. The Group monitors financial assets measured at amortised cost or fair value through other comprehensive income that are derecognised prior to their maturity to understand the reason for their disposal and whether the reasons are consistent with the objective of the business for which the asset was held. Monitoring is part of the Group's continuous assessment of whether the business model for which the remaining financial assets are held continues to be appropriate and if it is not appropriate whether there has been a change in business model and so a prospective change to the classification of those assets

b. **Fair value of financial instruments**

The fair value of financial instruments is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction in the principal (or most advantageous) market at the measurement date under current market conditions (i.e., an exit price) regardless of whether that price is directly observable or estimated using another valuation technique. When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be derived from active markets, they are determined using a variety of valuation techniques that include the use of valuation models. The inputs to

Notes forming part of the consolidated financial statements

these models are taken from observable markets where possible, but where this is not feasible, estimation is required in establishing fair values. Judgements and estimates include considerations of liquidity and model inputs related to items such as credit risk (both own and counterparty), funding value adjustments, correlation and volatility

c. **Effective** Interest **Rate (EIR) method**

The Group's EIR methodology recognises interest income / expense using a rate of return that represents the best estimate of a constant rate of return over the expected behavioral life of loans given / taken and recognises the effect of potentially different interest rates at various stages and other characteristics of the product life cycle (including prepayments and penalty interest and charges). This estimation, by nature, requires an element of judgement regarding the expected behavior and life-cycle of the instruments.

d. **Provisions and other contingent liabilities**

The Group operates in a regulatory and legal environment that, by nature, has a heightened element of litigation risk inherent to its operations. As a result, it is involved in various litigation, arbitration and regulatory investigations and proceedings in the ordinary course of the Group's business.

When the Group can reliably measure the outflow of economic benefits in relation to a specific case and considers such outflows to be probable, the Group records a provision against the case. Where the outflow of resources embodying economic benefits is not probable and the amount of obligation cannot be measured with sufficient reliability a contingent liability is disclosed. Given the subjectivity and uncertainty of determining the probability and amount of losses, the Group takes into account a number of factors including legal advice, the stage of the matter and historical evidence from similar incidents. Significant judgement is required to conclude on these estimates.

e. **Subsequent measurement of gross obligations over written put options issued to the non-controlling interests**

The Parent Company has issued written put options to the non-controlling interests of it's subsidiary in accordance with the terms of underlying shareholders agreement. In respect of accounting for subsequent measurement of gross obligation on such written put options issued by the Parent Company, the Group has elected an accounting policy choice to recognize changes on subsequent measurement of the liability in shareholders' equity, in the absence of any mandatorily applicable accounting guidance under Ind AS.

2.39 New standards/amendments that are not yet effective and have not been early adopted:

Ministry of Corporate Affairs ("MCA") through Companies (Indian Accounting Standards) Amendment Rules, 2019 and Companies (Indian Accounting Standards) Second Amendment Rules, 2019 has notified the following new and amendments to Ind ASs which the Group has not early adopted.

Ind AS 116, Leases:

On March 30, 2019, MCA has notified Ind AS 116, Leases which will replace the existing leases standard, Ind AS 17 Leases, and related interpretations. Ind AS 116 sets out the principles for the recognition, measurement, presentation and disclosures of leases for both lessors and lessees. It introduces a single lessee accounting model and requires a lessee to recognise assets and liabilities for all leases with a term of more than twelve months, unless the underlying asset is of low value. The standard also contains enhanced disclosure requirements for leases. It substantially carries forward the lessor accounting requirements in Ind AS 17.

The effective date for adoption of Ind AS 116 is annual

Notes forming part of the consolidated financial statements

reporting periods beginning on or after April 1, 2019. The Group proposes to use the simpler Approach for transitioning to Ind AS 116 and take the cumulative adjustment to retained earnings, on the date of initial application, i.e., April 1, 2019. Accordingly, the comparatives of the year ended March 31, 2019 will not be restated. On transition, the Group will be using certain practical expedients that are available.

Currently, the operating lease expenses are charged to the Statement of Profit and Loss.

The Group is in the process of evaluating the impact of this on its financial statements.

Ind AS 12, Income Taxes:

On March 30, 2019, MCA issued amendments to the guidance in Ind AS 12, 'Income Taxes', in connection with accounting for dividend distribution taxes.

The amendment relating to income tax consequences of dividend clarify that an entity shall recognise the income tax consequences of dividends in profit or loss, other comprehensive income or equity according to where the entity originally recognised those past transactions or events.

The effective date for adoption of this amendment is annual periods beginning on or after April 1, 2019. The Group is in the process of evaluating the impact of this on its financial statements.

On March 30, 2019, MCA has notified Ind AS 12 Appendix C, Uncertainty over Income Tax Treatments which is to be applied while determining the taxable profit (or loss), tax bases, unused tax losses, unused tax credits and tax rates, when there is uncertainty over income tax treatments under Ind AS 12. According to the appendix, companies need to determine the probability of the relevant tax authority accepting each tax treatment or group of tax treatments, that the companies have used or plan to use in their income tax filing which has to be considered to compute the most likely amount or the expected value of the tax treatment when determining taxable profit (tax loss), tax bases, unused tax losses, unused tax credits and tax rates.

The Group proposes to adjust the cumulative effect of application of Appendix C in equity on the date of initial application i.e., April 1, 2019 without adjusting comparatives.

The effective date for adoption of this amendment is annual periods beginning on or after April 1, 2019. The Group is in the process of evaluating the impact of this on its financial statements.

Ind AS 19, Employee Benefits

On March 30, 2019, MCA has issued amendments to Ind AS 19, Employee Benefits, in connection with accounting for plan amendments, curtailments and settlements.

This amendment requires an entity to:

(i) use updated assumptions to determine current service cost and net interest for the remainder of the period after a plan amendment, curtailment or settlement; and

(ii) recognise in profit or loss as part of past service cost, or a gain or loss on settlement, any reduction in a surplus, even if that surplus was not previously recognised because of the impact of the asset ceiling.

Effective date for application of this amendment is annual period beginning on or after April 1, 2019. The Group is in the process of evaluating the impact of this on its financial statements.

Notes forming part of the consolidated financial statements

3. Cash and cash equivalents

(Rs. in lakhs)

Particulars	As at 31.03.2019	As at 31.03.2018	As at 01.04.2017

(viii)	Partly paid-up investment	438.26	779.67	-
(ix)	Claims, other than against policies, not acknowledged as debts	1,299.15	1,236.17	1,104.25
(x)	Others (Refer note f)	2,409.31	1,872.76	1,034.30

* Inclusive of Interest and penalty of Rs. 2,690.00 lakhs and Rs. 2,128.00 lakhs respectively as at March 31, 2019 (Rs. 9,206.00 lakhs and Rs 8,376.00 lakhs as at March 31, 2018 and Rs. 13,393.00 lakhs and Rs.7,727.00 lakhs as at April 01, 2017)

Notes :

a. Claims against the Company not acknowledged as debts represent the cases pending with judicial forums / authorities. Based on management estimation and opinions from legal advisors, management believes that its position is likely to be upheld in appellate process. No tax has been accrued in the financials statements for tax / legal case demands. The management believes that the ultimate outcome of the proceedings will not have material adverse effect on the Company's financial position and result of operations.

b. The Company has not made any provision for the demands in service tax cases as the Company believes that they have a good case based on existing judicial pronouncements. Advance paid against the same is Rs. 12.00 lakhs (As at 31 March, 2018 : Rs. 12.00 lakhs, As at 1 April, 2017 : Rs. 12.00 lakhs).

   Above contingent liability includes SCN cum demand notices received by Max Life Insurance Company Limited (MLIC) from Service Tax Authorities vide SCN dated 22 April, 2013 with demand of Rs. 2,264.00. MLIC is in appeal at different forums against raised issues. During the current year, MLIC has re-evaluated the demand of service tax on surrender charges and concluded that the possibility of an outflow of resources embodying economic benefit is remote. Accordingly contingent liability has been reduced amounting to Rs. 19,718.00 including interest and penalty.

c. The Company has received notices from National Stock Exchange of India Limited (NSE) and BSE Limited (BSE) respect

Notes forming part of the consolidated financial statements

of non-compliance with Regulation 17(1) of SEBI (Listing obligations and Disclosure requirements) 2015, pertaining to composition of Board. The Company has deposited Rs. 11.40 lakhs under protest and has requested NSE and BSE for waivers.

d. Income tax cases represent the cases pending with income tax authorities / appellate authorities. Based on management estimation, future cash outflow in respect of these cases are determinable only on receipt of judgments / decisions pending with various courts / authorities. The Company has not made any provision for the demands in income tax cases as the Company believes that they have a good case based on existing judicial pronouncements.

e. During the year 2006, the Ministry of Corporate Affairs had carried out an inspection, wherein certain technical offences were alleged by the Inspection Officer, based on which prosecution proceedings were initiated against the Company, its erstwhile Whole-time Directors and the Company Secretary at Chief Judicial Magistrate, Chandigarh. The Company filed writ petition against the prosecution proceedings with the Hon'ble High Court of Punjab and Haryana. The Hon'ble High Court had stayed the proceedings and listed the case for arguments, which concluded in 2019.

   The Hon'ble High Court passed the following judgements in the three matters on 5 March 2019:

   1. Non-display of registered office address at its corporate office in a prominent manner: Decided in favour of the Company with no costs.

   2. Providing interest free loans to group companies: A nominal compounding fee of Rs. 0.50 lakhs has been levied on the Company and the matter was disposed off. The Company has paid the compounding fee of Rs. 0.50 lakhs vide demand draft number 033477 dated 7 March 2019.

   3. Non-charging of interest on the excess remuneration received and refunded by former executive directors: The Hon'ble High Court directed the former executive directors to pay simple interest @ 12% per annum for the period such excess remuneration was retained by them. The Company recorded the interest receivable in the financial statements for the year ended 31 March, 2019. The amounts have been recovered subsequent to year end.

f. Represents potential liability in respect of repudiated Policyholders' claims Rs. 2,384.00 lakhs (March 31, 2018 Rs. 1,759.00 lakhs) and bank guarantee placed with bank for UIDAI of Rs. 25.00 lakhs (March 31, 2018 Rs. 25.00 lakhs).

   As per IRDAI circular IRDA/F&A/CIR/Misc/173/07/2017 dated July 25, 2017, unclaimed amount of policyholders with ageing more than 120 months transferred to Senior Citizens' Welfare Fund (SCWF), amounting to Rs. 114 lakhs was shown as contingent liability at March 31, 2018. However, IRDAI via circular IRDA/F&A/CIR/Misc/105/07/2018 dated July 11, 2018 has withdrawn this disclosure requirement, with immediate effect. Hence amount transferred to SCWF is not reported in the above disclosure.

Notes forming part of the consolidated financial statements

g. Litigation in an erstwhile subsidiary of the Company, Max Telecom Ventures Limited ("MTVL") (since merged with the Company with effect from December 1, 2005)

S. No.	Assessment Year	Brief Description	Pending Before
1	1998-99	The capital gains of Rs. 47,493.09 lakhs realised by MTVL from the sale of shares of Hutchison Max Telecom Limited ("HMTL") [1st Stake Sale] were denied exemption under section 10(23G) of the Income-tax Act, 1961 ("the Act") by the Assessing Officer vide order dated March 28, 2001 and the sale transaction was held to be chargeable to tax in the financial year relevant to Assessment Year 1998-99 (MTVL had claimed that it pertained to AY 1999-2000). This resulted in a demand of Rs. 9,503.93 lakhs. On appeal by MTVL, the CIT (Appeals) vide order dated March 18, 2002 [while concluding that the sale transaction pertained to financial year relevant to Assessment Year 1998-99], quashed the order of the Assessing Officer denying exemption under section 10(23G), thereby cancelling the demand. The Tax Department has filed an appeal with the Income-tax Appellate Tribunal (ITAT) against this order which is pending as on date.	ITAT
2	1999-2000	Subsequently, in the next Assessment Year i.e. 1999-00, the above-mentioned transaction was once again sought to be taxed under a different head of income (i.e. business income) on a protective basis by the Assessing Officer vide order dated March 28, 2002 as MTVL had claimed that the transaction pertained to Assessment Year 1999-00 and not Assessment Year 1998-99. This, along with a few other additions, resulted in creation of a further demand of Rs. 24,993.19 lakhs which included the demand of Rs. 24,368.00 lakhs on protective basis. On appeal by MTVL, the CIT (Appeals) decided in favour of MTVL vide order dated December 18, 2002 and the demand was cancelled. The Tax Department has filed appeal against this order with the ITAT, which is pending as on date.	ITAT
3	1998-99	MTVL also filed an appeal before ITAT for Assessment Year 1998-99 contending that the aforesaid sale transaction pertained to financial year relevant to Assessment Year 1999-2000. This was disposed off by ITAT vide order dated March 23, 2007 by applying a circular of Tax Department applicable only to capital gains and holding, as a result, that the transaction of sale of shares pertained to financial year relevant to Assessment Year 1998-99. However, the Tax Authorities filed a petition before the ITAT requesting a review of the said order of the ITAT on the ground that all the matters pertaining to the aforesaid sale transaction should have been clubbed and heard together. The said petition of the Department was accepted by the ITAT vide order dated March 27, 2009 by recalling its earlier order. Aggrieved, the Company filed a writ petition to the Hon'ble High Court of Punjab and Haryana (HC) challenging the above action of ITAT on the ground that the same was beyond jurisdiction. The HC vide order dated May 04, 2009 admitted the writ petition and stayed the operations of the said order of ITAT. The ITAT, thereafter, adjourned sine-die all the matters pending operation of the stay imposed by the HC. The Department, subsequently, moved a Special Leave Petition (SLP) to Hon'ble Supreme Court against the stay granted by Hon'ble HC. The SLP was dismissed by the Hon'ble Supreme Court vide order dated May 12, 2010 with a direction to the HC to expeditiously dispose the writ petition filed by MTVL, which is pending as of date.	High Court

Notes forming part of the consolidated financial statements

4	2006-07	The capital gains of Rs. 41,153.88 lakhs realised from the sale of remaining shares of HMTL [2nd Stake Sale] were taxed by holding the gains from sale transaction to be in the nature of business income and not capital gains and as a consequence exemption under Section 10(23G) of the Act was denied by the Assessing Officer vide order dated December 31, 2009 and a demand of Rs. 15,585.17 lakhs was raised. MTVL filed an appeal against the said order. The CIT(Appeals), vide order dated March 22, 2011, had quashed the assessment framed by the Assessing Officer, holding that the assessment was nullity in law and in view of the fact that the order was framed in the name of MTVL, an entity which had ceased to exist w.e.f. December 1, 2005. As a consequence, the demand stood cancelled.	High Court
		The Department had filed an appeal to ITAT against the said order of CIT(Appeals). The ITAT vide its order dated March 8, 2013 has upheld the order of CIT(Appeals). The Tax Department has filed appeal against this order with the Hon'ble HC, which is pending as on date.	
5	2006-07	Consequent to quashing of the first proceedings in the name of MTVL, the Department initiated proceedings against Max India Limited as Successor of MTVL u/s 147 of the Act vide notice dated April 26, 2011. These proceedings had been completed on March 26, 2013 by holding the gains from sale transaction to be in the nature of business income and not capital gains and consequently denying exemption under Section 10(23G) of the Act and a demand of Rs. 19,816.25 lakhs had been raised. The company had filed an appeal against the same on April 25, 2013 and obtained stay of demand on May 27, 2013. The CIT(Appeals), vide order dated November 18, 2013, held on merits that the gain arising from sale of shares of HMTL be treated as long term capital gains and allowed the exemption u/s 10(23G) of the Act in respect of long term capital gain arising on sale of shares of HMTL be allowed to MTVL. The CIT(A), however, upheld reassessment proceedings by the Assessing Officer under section 147 of the Act as valid. As a consequence, the demand stood cancelled. Pursuant to this, the Tax Department has filed appeal against this order and MTVL has also filed cross objections before the ITAT against the action of the CIT(A) upholding the validity of re-assessment proceedings. Both appeals are pending as on date.	ITAT

36. Segment information

36.1 The segment reporting of the Group has been prepared in accordance with Ind AS-108, "Operating Segment" (specified under the section 133 of the Companies Act 2013 (the Act) read with Companies (Indian Accounting Standards) Rule 2015 (as amended from time to time) and other relevant provision of the Act). For management purposes, the Group is organised into business units based on its products and services and has two reportable segments as follows:

a) Operating Segments:

(i) Business Investments – This segment is represented by treasury investments.

(ii) Life Insurance – This segment relates to the life insurance business carried out pan India, by one of the Company's subsidiary.

b) Identification of Segments:

The Operating Segments have been identified on the basis of business activities from which the Group earns revenues and incurs expenses and whose operating results are reviewed by the Chief Operating Decision Maker (CODM) of the Group to make decisions about the resources to be allocated and assess performance and for which discrete financial information is available.

Notes forming part of the consolidated financial statements

c) Revenue and expenses have been identified to a segment on the basis of relationship to operating activities of the segment. Revenue and expenses which relate to enterprise as a whole and are not allocable to a segment on reasonable basis have been disclosed as "Unallocated".

d) Segment assets and segment liabilities represent assets and liabilities in respective segments.

37. Employee benefit plans

(i) Defined contribution plans

The Group makes provident fund and employees state insurance scheme contributions which are defined contribution plans for qualifying employees. Under the schemes, the Group is required to contribute a specified percentage of the payroll costs to fund the benefits. The contribution as specified under the law are paid to the provident fund trust set up by the Group. The Group is liable for annual PF contributions and any deficiency in interest cost compared to interest computed based on the rate of interest declared by the Central Government under the Employees' Provident Fund Scheme, 1952 and recognises, if any, as an expense in the year it is determined.

As per the actuarial report provided by the Actuary, As of 31 March, 2019, the fair value of the assets of the fund and the accumulated members' corpus is Rs. 29,999.03 lakhs (As at 31 March, 2018: Rs. 25,222.06 lakhs, as at 1 April, 2017: Rs. 22,333.65 lakhs) and Rs. 29,369.00 lakhs (As at 31 March, 2018: Rs. 24,972.51 lakhs, as at 1 April, 2017: Rs. 22,076.76 lakhs) respectively. In accordance with an actuarial valuation, there is no deficiency in the interest cost as the present value of the expected future earnings on the fund is greater than the expected amount to be credited to the individual members based on the expected guaranteed rate of interest of 8.65% (As at 31 March, 2018: 8.55% , as at 1 April, 2017: 8.65%). The actuarial assumptions include discount rate of 6.76% (As at 31 March, 2018: 7.18% , as at 1 April, 2017: 6.67%).

The Group recognised Rs. 2,468.50 lakhs (Previous year: Rs. 2,080.08 lakhs) for provident fund contribution and Rs. 529.00 lacs (previous year: Rs. 533.89 lacs) for employee state insurance scheme contribution in the Statement of Profit and Loss. The contributions payable to the plan by the Group is at the rates specified in rules to the Scheme.

(ii) Defined benefit plans

The Company and its subsidiary makes annual contribution to their Employees Gratuity Fund maintained with Life Insurance Corporation of India and Max Life Insurance Company Limited respectively, a funded defined benefit plan for eligible employees. The scheme provides for lump sum payment to vested employees at retirement, death while in employment or on termination of employment of an amount equivalent to 15 days salary payable for each completed year of service or part thereof in excess of 6 months. Vesting occurs upon completion of 5 years of service.

The present value of the defined benefit obligation and the related current service cost were measured using the Projected Unit Credit Method with actuarial valuations being carried out at each balance sheet date.

The gratuity plan typically exposes the Group to actuarial risks such as: interest rate risk, longevity risk and salary risk.

Interest risk

A decrease in the bond interest rate will increase the plan liability.

Longevity risk

The present value of the defined benefit plan liability is calculated by reference to the best estimate of the mortality of plan participants both during and after their employment. An increase in the life expectancy of the plan participants will increase the plan's liability

Salary risk

The present value of the defined benefit plan liability is calculated by reference to the future salaries of plan participants. As such, an increase in the salary of the plan participants will increase the plan's liability.

No other post-retirement benefits are provided to these employees

In respect of the plan in India, the most recent actuarial valuation of the present value of the defined benefit obligation was carried out as at 31 March, 2019 by Manohar Lal Sodhi, Consulting Actuary, Fellow of the Institute of Actuaries of India ('Actuarial'). The present value of the defined benefit obligation, and the related current service cost and past

Notes forming part of the consolidated financial statements

service cost, were measured using the projected unit credit method as computed by the Actuarial.

(a) The principal assumptions used for the purposes of the actuarial valuations were as follows:

Particulars	Year ended 31.03.2019	Year ended 31.03.2018	Year ended 01.04.2017
Discount rate(s)	7.20%-7.60%	7.20%-7.60%	6.50%-7.40%
Expected return on plan assets	7.50%-7.60%	8.35%-8.70%	8.35%-8.70%
Salary escalation	7.50%-10.00%	7.50%-10.00%	7.50%-10.00%
Retirement age	58-65 years	58-65 years	58 years
Mortality tables	IALM (2006 - 08)	IALM (2006 - 08)	IALM (2006 - 08)
Attrition (%) - All ages	5%-25%	5%-25%	5%-25%
Estimate of amount of contribution in the immediate next year (Rs. in lakhs)	2,104.63	1,171.62	692.32

(b) Amounts recognised in Statement of Profit and Loss in respect of these defined benefit plans are as follows as computed by the Actuarial:

(Rs. in lakhs)

Particulars	Year ended 31.03.2019	Year ended 31.03.2018
Service cost		
- Current service cost	353.34	561.96
Interest cost	243.20	253.37
Expected return on plan assets	(185.25)	(213.67)
Components of defined benefit costs recognised in profit or loss	**411.29**	**601.66**
Remeasurement on the net defined benefit liability		
- Return on plan assets (excluding amounts included in net interest expense)	(45.33)	(38.75)
- Actuarial (gains) / losses arising from changes in financial assumptions	1.68	255.58
- Actuarial (gains) / losses arising from experience adjustments	(458.83)	(186.31)
Components of defined benefit costs recognised in other comprehensive income	**(502.48)**	**30.52**
Total	**(91.19)**	**632.18**

The current service cost and the net interest expense for the year are included in the employee benefits expense line item in the Statement of Profit and loss.

The remeasurement of the net defined benefit liability is included in other comprehensive income.

(c) The amount included in the Balance Sheet arising from the entity's obligation in respect of its defined benefit plans is as follows as computed by the Actuarial:

(Rs. in lakhs)

Particulars	Year ended 31.03.2019	Year ended 31.03.2018	Year ended 01.04.2017
Present value of funded defined benefit obligation	(4,186.07)	(3,910.76)	(3,546.86)
Fair value of plan assets	1,946.22	2,441.33	2,648.37
Net liability arising from defined benefit obligation	**(2,239.85)**	**(1,469.43)**	**(898.49)**

Notes forming part of the consolidated financial statements

(d) Movements in the present value of the defined benefit obligation are as follows:

(Rs. in lakhs)

Particulars	As at 31.03.2019	As at 31.03.2018
Opening defined benefit obligation	3,910.76	3,546.86
Current service cost	353.34	561.96
Interest cost	243.20	253.37
Remeasurement (gains)/losses:		
- Actuarial gains and losses arising from changes in financial assumptions	(1.68)	(255.58)
- Actuarial gains and losses arising from experience adjustments	458.83	186.31
Benefit paid - Paid by the Enterprise	(202.42)	(382.16)
Benefit paid - Paymet made out of the Fund	(575.96)	-
Closing defined benefit obligation	**4,186.07**	**3,910.76**

(e) Movements in the present value of the plan assets as computed by Actuarial are as follows:

(Rs. in lakhs)

Particulars	Year ended 31.03.2019	Year ended 31.03.2018
Plan assets at beginning of the year	2,441.33	2,648.37
Expected return on plan assets	185.25	213.67
Actual group contributions	-	21.06
Actuarial gain / (loss) on plan assets	(45.33)	(38.75)
Benefits paid	(635.03)	(403.02)
Plan assets at the end of the year	**1,946.22**	**2,441.33**

(f) Significant actuarial assumptions for the determination of the defined obligation are discount rate, expected salary increase and mortality. The sensitivity analyses below have been determined based on reasonably possible changes of the respective assumptions occurring at the end of the reporting period, while holding all other assumptions constant.

i) If the discount rate is 100 basis points higher (lower), the defined benefit obligation would decrease by Rs. 88.29 lakhs (increase by Rs. 88.97 lakhs) [as at 31 March, 2018: decrease by Rs. 76.16 lakhs (increase by Rs. 76.82 lakhs)].

ii) If the expected salary growth increases (decreases) by 0.50%, the defined benefit obligation would increase by Rs. 32.04 lakhs (decrease by Rs. 32.85 lakhs) [as at 31 March, 2018: increase by Rs. 30.08 lakhs (decrease by Rs. 28.90 lakhs)].

The sensitivity analysis presented above may not be representative of the actual change in the defined benefit obligation as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated.

Furthermore, in presenting the above sensitivity analysis, the present value of the defined benefit obligation has been calculated using the projected unit credit method at the end of the reporting period, which is the same as that applied in calculating the defined benefit obligation liability recognised in the balance sheet.

(g) The discount rate is generally based upon the market yields available on Government bonds at the accounting date with a term that matches that of the liabilities.

Notes forming part of the consolidated financial statements

(h) Experience on actuarial gain/(loss) for benefit obligations and plan assets:

(Rs. in lakhs)

Particulars	Gratuity				
	31.03.2019	31.03.2018	31.03.2017	31.03.2016	31.03.2015
Present value of DBO	4,186.07	3,910.76	3,546.86	3,281.14	4,725.49
Fair value of plan assets	1,946.22	2,441.33	2,648.37	1,071.68	2,107.09
Funded status [Surplus / (Deficit)]	(2,239.85)	(1,469.43)	(898.49)	(2,209.46)	(2,618.40)
Experience gain / (loss) adjustments on plan liabilities	(457.15)	69.27	111.75	153.89	57.67
Experience gain / (loss) adjustments on plan assets	(45.33)	(38.75)	35.42	153.18	153.19

38. Calculation of Earnings per share (EPS) - Basic and Diluted

Particulars	Year ended 31.03.2019	Year ended 31.03.2018
Basic EPS		
Profit attributable to shareholders (Rs. in lakhs)	26,256.07	28,639.24
Weighted average number of equity shares outstanding during the year (Nos.)	268,605,095	267,948,970
Face value per equity share (Rs.)	2.00	2.00
Basic Earnings Per Share (Rs.)	**9.77**	**10.69**
Diluted EPS		
Equivalent weighted average number of employee stock options outstanding (Nos)	254,562	758,693
Weighted average number of equity shares outstanding during the year for dilutive earnings per share (Nos)	268,859,656	268,707,663
Diluted Earnings Per Share (Rs.)	**9.77**	**10.66**

39. Employee Stock Option Plan

39.1 Employee Stock Option Plan – 2003 ("the 2003 Plan"):

The Company had instituted the 2003 Plan, which was approved by the Board of Directors on 25 August, 2003 and by the shareholders on 30 September, 2003. The 2003 Plan provides for grant of stock options aggregating not more than 5% of number of issued equity shares of the Company to eligible employees of the Company. The 2003 Plan is administered by the Nomination and Remuneration Committee appointed by the Board of Directors. Under the plan, the employees receive shares of the Company upon completion of vesting conditions such as rendering of services across vesting period. Vesting period ranges from one to five years and options can be exercised within two years from vesting date. As amended in the 2003 Plan and approved the shareholders in Annual General Meeting held on 30 September, 2014, the Option Price will be determined by the Nomination and Remuneration Committee, from time to time, in accordance with the provisions of applicable law, provided that the Option Price shall not be below the face value of the equity shares of the Company.

Notes forming part of the consolidated financial statements

The following share based arrangements were in existence during the current and prior years :

Options Series		Number	Grant date	Expiry date	Exercise Price (in Rs.)	Fair value at grant date (in Rs.)
1	Employee Stock Option Plan - 2003	110,750	12-Dec-14	30-Nov-19	311.20	258.34
		5,650	27-Mar-15	27-Mar-19	2.00	443.82
		7,308	1-Apr-16	1-Apr-19	2.00	334.05
		7,307	1-Apr-16	1-Apr-20	2.00	332.46

Note 1 : Options were priced using Black Scholes model, by an approved valuer engaged by the Company.

Particulars	March 31, 2019		March 31, 2018	
	Number of options	Weighted Average exercise price (Rs.)	Number of options	Weighted Average exercise price (Rs.)
Option outstanding at the beginning of the year	1,132,767	219.48	2,246,745	211.90
Granted during the year	-	-	-	-
Forfeited during the year	-	-	-	-
Exercised during the year	(1,001,752)	218.78	(1,113,978)	204.19
Outstanding at the end of the year	131,015	224.82	1,132,767	219.48

For the period, the weighted average share price at the exercise date was Rs. 425.52 (previous year: Rs. 601.93)

The weighted average exercise price for stock options outstanding as at March 31, 2019 was Rs. 224.82 per share (March 31, 2018: Rs 219.48 per share).

The weighted average remaining contractual life for the stock options outstanding as at 31 March, 2019 is 0.56 years (31 March, 2018: 1.14 years). The range of exercise prices for options outstanding at the end of the year was 2.00 to 311.20 (31 March, 2018: 2.00 to 311.20).

The expected life of the stock is based on historical data and current expectations and is not necessarily indicative of exercise patterns that may occur. The expected volatility reflects the assumption that the historical volatility over a period similar to the life of the options is indicative of future trends, which may also not necessarily be the actual outcome.

39.2 Employees Phantom Stock Plans (PSP Plans)

The Company had instituted PSP Plans, which were approved by the Board of Directors. The PSP Plans provide for issue of units to eligible employees of the Compay. Under the Plans, eligible employees receive cash equivalent to fair market value of units upon completion of vesting conditions, as administered by the Nomination and Remuneration Committee including rendering of services across vesting period. Vesting period ranges from 1 to 4 years.

Accordingly Rs. 720.49 lakhs (previous year: Rs. 380.42 lakhs) has been accrued as an expense in the Statement of Profit and Loss account as applicable. The details of the units granted during the year are as under:

Notes forming part of the consolidated financial statements

Particulars	As at 31 March, 2019		As at 31 March, 2018	
	Number of options	Weighted Average exercise price (Rs.)	Number of options	Weighted Average exercise price (Rs.)
Option outstanding at the beginning of the year	222,478	5.68	143,052	6.00
Granted during the Year	173,723	5.38	115,189	5.38
Forfeited during the year	-	-	-	-
Exercised during the year	(204,734)	6.00	(35,763)	6.00
Outstanding at the end of the year	191,467	5.68	222,478	5.68

The weighted average remaining contractual life for the stock options outstanding as at 31 March, 2019 is 1.00 years (31 March, 2018: 1.59 years).

39.3 Max Life Insurance Company Limited

Employee Phantom Stock Plan (Cash settled):

During the year ended 31 March, 2013, the Company had instituted Employee Phantom Stock Plan (EPOP) w.e.f. 1 August, 2012.

During the year ended 31 March, 2015, the Company had issued Employee Phantom Stock Plan (EPOP) w.e.f. 01 July, 2014, 25 September, 2014 and 01 December, 2014. Further, during the year ended 31 March, 2016, the Company issued Employee Phantom Stock Plan (EPOP) w.e.f. 30 October, 2015 and 01 January, 2016. Accordingly Rs. 4,881.35 lakhs (previous year Rs. 8,181.73 lakhs) has been accrued as expense in the statement of profit & loss account as applicable The details of the scheme are as under:

Particulars	As at 31.03.2019		As at 31.03.2018	
	Number of options	Weighted Average exercise price (Rs.)	Number of options	Weighted Average exercise price (Rs.)
Outstanding at the start of the year	12,301,000	32.09	23,916,000	32.09
Granted during the Year	6,182,000	96.40	-	-
Forfeited during the year	(1,603,000)	32.09	(1,163,000)	32.09
Exercised during the year	(4,331,000)	32.09	(10,452,000)	32.09
Outstanding at the end of the year	12,549,000	63.77	12,301,000	32.09

The range of exercise prices for options outstanding at the end of the year was INR 29.97 to INR 96.40 (31 March 2018: INR 29.97 to INR 53.64)

Notes forming part of the consolidated financial statements

40. Leases

Lease rentals recognised in the Consolidated Statement of Profit and Loss for the year is Rs. 8,127.82 lakhs (previous year: Rs. 7,375.54 lakhs).

The Group has entered into operating leases for its office and for employees' residence, that are renewable on a periodic basis. The average life of lease is from 3 to 10 years. The total of future minimum lease payments under non-cancellable leases are as follows:

(Rs. in Lakhs)

Particulars	As at 31.03.2019	As at 31.03.2018	As at 01.04.2017
Not later than one year	903.00	19.09	61.70
Later than one year and not later than five year	1,432.00	-	19.09
Later than five year	-	-	-
Total	**2,335.00**	**19.09**	**80.79**

42. Financial Instruments

(a) Capital Management

The capital management objectives of the Company are:

- to ensure that the Company complies with externally imposed capital requirements and maintains strong credit ratings and healthy capital ratios

- to ensure the ability to continue as a going concern

- to provide an adequate return to shareholders

Management assesses the capital requirements of the Company in order to maintain an efficient overall financing structure. The Company manages the capital structure and makes adjustments to it in the light of changes in economic conditions and the risk characteristics of the underlying assets.

(b) Risk management framework

The Group is exposed to market risk (including currency risk, interest rate risk and other price risk), credit risk and liquidity risk.

The objective of the Group's risk management framework is to manage the above risks and aims to :

- improve financial risk awareness and risk transparency

- identify, control and monitor key risks

- provide management with reliable information on the Company's risk exposure

- improve financial returns

The Group's overall approach to managing risk is based on the 'three lines of defence' model with a clear segregation of roles and responsibilities for all the lines. Business Managers are part of the first line of defence and have the responsibility to evaluate their risk environment and put in place appropriate controls to mitigate such risks or avoid them. The Risk Management Function, along with the Compliance Function, form the second line of defence. The Internal Audit Function guided by the Audit Committee is the third line of defence and provides an independent assurance to the Board. The Statutory Auditors and regulatory oversight aided by the Appointed Actuary in his/her fiduciary capacity is also construed to provide an additional third line of defence. The Group has in place a robust and comprehensive internal control mechanism across all the major processes as a part of the internal financial controls (IFC Framework) adequacy of which is tested periodically by the internal audit function and an opinion on its efficacy is provided by the statutory auditors.

Risk management activities are supervised on behalf of the Board by the Risk, Ethics and Asset Liability Management Committee, whose responsibilities includes those in conformity with those prescribed by the IRDAI for insurance businesses. The Group for its life insurance business has Management Risk Committee chaired by the Managing Director & Chief Executive Officer and supported by the Operational Risk Group, and Asset Liability Management Group, Information Security & Business Continuity Management Committee and the Outsourcing Committee, assist the Board Committee in overseeing the risk management activities across the life insurance business.

The Group in respect of its life insurance arm, Max Life Insurance has an independent Risk Management Function in place, headed by a Chief Risk Officer. The function is responsible for the supervision of all risk management activities, including developing the risk appetite, maintaining an aggregated risk view, monitoring the residual risks to ensure that they remain within tolerance levels. It also reviews the appropriateness and adequacy of the risk management strategy and develops recommendations to the REALM Committee as necessary. The Risk Management function also ensures that, through various management submissions, the Board is adequately informed on key emerging risk related issues and if necessary, provides supplementary advice to the Board through REALM Committee.

Notes forming part of the consolidated financial statements

The Group has in place a Risk Management Policy which lays down the broad contours of management system in place which is used to identify, assess, monitor, review, control, report risks and controls within the Group. The Group has a risk management system It also requires the Group that enables it to identify risks, set tolerance levels, develop and implement strategies, policies, procedures and controls to manage different types of risks within the overall risk appetite., A Risk Appetite Statement is in place which identifies and addresses each material risk to which the Group is exposed and establishes the degree of risk that the Group is willing to accept in pursuit of its strategic objectives, business plans giving consideration to the interests of its stakeholders and the interest of the policyholders. These material risks have been categorized in the areas of Strategic, Insurance, Investment and Operational Risks. The Risk Management Strategy has been developed which defines the Company's approach to manage the identified material risks through acceptance, avoidance, transfer and/or mitigation. The degree and intensity of the management action is guided by comparing the risk appetite with the potential impact of the risk, likelihood of its occurrence and the costs of implementing the controls. This is supplemented by various policies and procedures in respective operating areas which help to identify, mitigate and monitor risks. A risk dashboard is also in place which rates each material risk on the basis of identified key risk indicators and respective tolerance levels. This is also monitored both at the management level as well as the Board Committee level. The framework and its effectiveness are subject to both internal and external assurance reviews.

As an insurer, the Group is in the business of accepting certain kinds of risks. It is Group's policy that risks should be managed systematically with the process of risk management being well defined and with its various elements properly integrated. The risk management framework also ensures that the level of risk accepted is within the Group's risk capacity and the level of capital adequacy is in excess of the level prescribed in the regulations. The degree and intensity of the management action is guided by comparing the risk appetite with the potential impact of the risk, likelihood of its occurrence and the costs of implementing the controls.

The entire implementation is monitored both at the management level as well as the Board Committee levels and the overall risk management framework and its effectiveness are subject to both internal and external assurance reviews.

The key risk exposures are summarized below along with a brief approach adopted by the Group to manage those risks.

(i) Market risk

Market risk is the risk that the fair value of financial instrument will fluctuate because of change in market price.

The Company's activities expose it primarily to interest rate risk, currency risk and other price risk such as equity price risk. The financial instruments affected by market risk includes : Fixed deposits, current investments, borrowings and other current financial liabilities.

Interest Rate Risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. Floating rate instruments exposes the company to cash flow interest risk, whereas fixed interest rate instruments expose the company to fair value interest risk.

Further, any interest rate movements have an inherent implication on the valuation of liabilities also due to the long term nature of product designs and liability profiles.

The Duration gap between assets and liabilities is actively managed to ensure minimum sensitivity to interest rates.

The Group also uses interest rate swaps to lock-in a fixed rate, which is higher than Group's current expectation of future interest rates. Use of interest rate swaps protects the guaranteed liability portfolio from falling interest rates by reducing the reinvestment risk on new money.

The following analysis is performed for reasonably possible movements in key variables with all other variables held constant, showing the impact on profit before tax and equity. The correlation of variables will have significant effect in determining the ultimate impact of interest rate risk, but to demonstrate the impact due to changes

Notes forming part of the consolidated financial statements

in variables, variables had to be changed on an individual basis. It should be noted that movements in these variables are linearly related. The method used for deriving sensitivity information and significant variables have not changed from the previous period.

(Rs. in lakhs)

Market indices	Change in Interest rate	As at 31 March, 2019		As at 31 March, 2018	
		Impact on profit before tax	Impact on equity	Impact on profit before tax	Impact on equity
Interest rate	25 Basis Point down	-	1,836.00	-	1,138.00
	50 Basis Point down	-	3,673.00	-	2,277.00
	25 Basis Point Up	-	(1,836.00)	-	(1,138.00)
	50 Basis Point Up	-	(3,673.00)	-	(2,277.00)

The Group is also exposed to interest rate risk on fixed deposits outstanding as at the year end. The Group invests in fixed deposits to achieve the Group's goal of maintaining liquidity, carrying manageable risk and achieving satisfactory returns.

Equity Price Risk

Equity market risk is the potential for financial loss arising from declines or volatility in equity market prices. The Group is exposed to equity risk from a number of sources. A portion of our expose to equity market risk arises in connection with benefits guarantee on contracts issued. The cost of providing for these guarantees is uncertain, and will depend upon a number of factors including general capital market conditions, underlying fund performance, policyholder behaviour, and mortality experience, which may result in negative impacts on our net income and capital.

The analysis below is performed for reasonably possible movements in market indices with all other variables held constant, showing the impact on profit before tax (due to changes in fair value of financial assets and liabilities whose fair values are recorded in the statement of profit or loss) and equity (that reflects changes in fair value of financial assets). The correlation of variables will have a significant effect in determining the ultimate impact on price risk, but to demonstrate the impact due to changes in variables, variables had to be changed on an individual basis.

(Rs. in lakhs)

Market indices	Change in Variables	2018-19		2017-18	
		Impact on profit before tax	Impact on equity	Impact on profit before tax	Impact on equity
Equity price	10% rise	1,319.00	-	1,168.00	-
	10% fall	(1,319.00)	-	(1,168.00)	-

Operational Risk

Operational risk is the risk of loss arising from system failure, human error, fraud or external events. When controls fail to perform, operational risks can cause damage to reputation, have legal or regulatory implications or can lead to financial loss. Given the nature and scale of operations, the Group accepts high level of intrinsic risk in the operating model but has low tolerance for outages, specifically either at point of sale or in the subsequent delivery of policyholder obligations. The Group therefore makes resources available to control operational risks to acceptable levels however, recognizes that it is not possible to eliminate some of the risks inherent in its activities given the economic benefits of eliminating the same are far lower than the costs incurred in the process. Controls include effective segregation of duties, access controls, authorisation and reconciliation procedures, staff education and assessment processes, including the use of internal audit. Business risks such as changes in environment, technology and the industry are monitored through the Group's strategic planning and budgeting process.

Notes forming part of the consolidated financial statements

The Group is exposed to various areas of operational risks, including misselling, technology, business continuance, information security, fraud, business processes, outsourcing, and compliance. These are mitigated by regular review and monitoring of operating, reporting processes and procedures. A range of policies and procedures to manage these risks is in place including Business Continuity Management, Information Security, Outsourcing, Anti-Fraud, Anti-Corruption and Anti-Bribery, and Anti-Money Laundering Policies together with a Business Code of Conduct. The first line of defence, through the departmental self-assessments, identifies all potential areas of inherent as well as residual risks along with the mitigation actions. The progress against these is monitored closely by respective functions, and is followed up by monitoring and reviews by the second and the third lines of defence.

Information Security risks are governed through Information Security Management System aligned and certified against ISO 27001 which is a global benchmark. The Group has a comprehensive Information Security policy designed to comply with ISO 27001, privacy and / or data protection legislations as specified in Indian Information Technology Act 2008 and Notification dated 11th April 2011 on protection of sensitive personal information and it provides direction to Information Security staff, Management and employees regarding their roles and responsibilities towards Information Security.

The subsidiary of the Company, Max Life Insurance also has a Business Continuity Management System which is aligned and certified against ISO 22301 which is also a global benchmark and has a planned response in the event of any contingency ensuring recovery of critical activities at agreed levels within agreed timeframe thereby complying with various regulatory requirements and minimizing the potential business impact to Max Life. Additionally, it creates a system that fosters continuous improvement of business continuity management.

The Operational Risk Group and the Management Risk Committee monitor the residual risks in these areas and ensure that control actions are triggered at appropriate times to ensure that these risk exposures remain within the Group's risk appetite. Process risks in respect of technical areas like Product Developments, Information Security are monitored through specialised forums like a Product Steering Committee (which governs a defined process and structure for development of products), Information Security & Business Continuity Management Committee (for all Information Security, Cyber Security and continuity related matters).

(ii) <u>Liquidity risk</u>

An asset-liability mismatch occurs when the financial terms of a Group's assets and liabilities do not correspond. These can lead to non-payment/deferment of claims, expenses, etc. Through effective cash management and capital planning, the Group ensures that, it is properly funded and maintain adequate liquidity to meet obligations. Elaborate mechanism is in place to match duration as well as cash flows through detailed ALM methodology which takes into account re-investment risk as well. Based on the Group's historical cash flows and liquidity management processes, the cash flows from the operating activities will continue to provide sufficient liquidity for us to satisfy debt service obligations and to pay other expenses as they fall due.

Liquidity risk is the possibility that the Group will not be able to fund all cash outflow commitments as they fall due. Group's primary funding obligations arise in connection with the payment of policyholder benefits Sources of available cash flow include general fund premiums and investment related inflows (such as maturities, principal repayments, investment income and proceeds of asset sales).

A governance structure, in form of the ALM Committee, and well defined Asset Liability Management Policy require periodic monitoring of the Asset-Liability position of the Group. The ALM policy defines the constraints on Investment policy arising from the nature of the liabilities that invested assets support. The Investment Policy defines in appropriate detail the specific limits on various forms of investment arising from Regulations, the ALM Policy and MLI's specific investment related risk appetites on various forms of investment. Periodic monitoring of interest rate sensitivity, dollar duration gap, cash flow matching, liquidity ratios, is undertaken at Management as well as Board Level Committees.

The Group remains committed to maintaining a healthy liquidity, gearing ratio, deleveraging and strengthening the balance sheet. The maturity profile of the Group's financial liabilities based on the remaining period from the date of balance sheet to the contractual maturity date is given in the table below. The figures reflect the

Notes forming part of the consolidated financial statements

contractual undiscounted cash obligation of the Group.

Maturity profile of financial liabilities:

(Rs. in lakhs)

Total	**158,717.04**	**64,383.93**	**-**	**-**	**223,100.97**

(iii) Credit risk

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the Company. The Company's exposure to credit risk primarily arises from trade receivables, balances with banks and security deposits. The credit risk on bank balances is limited because the counterparties are banks with good credit ratings. The Company's exposure and credit worthiness of its counterparties are continuously monitored.

Governance structure, in form of the Investment Committee, and well defined investment policies & processes are in place to ensure that the risks involved in investments are identified and acceptable levels are defined. Stringent investment norms and approval structure ensures healthy portfolio while delivering the expected performance. All Regulatory and Internal norms are built in the Investment system, which monitors the Investment limits and exposure norms on real-time basis.

The policyholders' funds are invested in accordance with regulatory norms, Investment policy, fund objective of unit linked funds and risk profile of the respective fund in fixed income segment, majority of the investment is made in the government securities having sovereign rating & debt securities issued by reputed corporate having appropriate rating as per Investment Committee.

Credit risk is significantly mitigated in Controlled Fund (CF) through investments in government securities (at least 50% as per regulations) and is managed by investing in bonds with minimum rating of AA+ in accordance

Notes forming part of the consolidated financial statements

with Investment Policy. Currently, over 90% of the rated debt portfolio (including government securities) of the Controlled Fund is invested in AAA rated bonds. However, the risk of downgrade in rating always remains which exposes Max Life to credit risk to a certain extent.

Credit risk arising from derivative financial instruments is, at any time, limited to those with positive fair values, as recorded on the balance sheet and is mitigated by maintaining cash collaterals against the fair values beyond a threshold.

It is the Group's policy to maintain accurate and consistent risk ratings across its credit portfolio. This enables management to focus on the applicable risks and the comparison of credit exposures across all lines of business, geographic regions and products. The rating system is supported by a variety of financial analytics combined with processed market information to provide the main inputs for the measurement of counterparty risk. All internal risk ratings are tailored to the various categories and are derived in accordance with the Group's rating policy. The attributable risk ratings are assessed and updated regularly.

The Group actively manages its investments exposures to ensure that there is no significant concentration of credit risk.

Expected credit loss

In accordance with Ind AS 109, the Company applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure:

a) Financial assets that are measured at amortised cost and

b) Financial assets (debt) that are measured as at FVTOCI

For recognition of impairment loss on financial assets and risk exposure, the Company determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss.

For the purpose of 12-month credit risk, Company has applied probability of default (PD) and loss given default (LGD) based on the credit rating of each securities. These PD and LGD for various ratings have been obtained from CRISIL and RBI respectively.

ECL allowance (or reversal) for the year is recognized as expense / income in the statement of profit or loss.

Notes forming part of the consolidated financial statements

ECL allowance computed, basis above, during the period under consideration is as follows:

(Rs. In lakhs)

Movement of Allowances	Financial Asset
As at 01 April, 2017	2.00
Provided during the year	51.00
Reversals of provision	(1.00)
As at 31 March, 2018	**52.00**
Provided during the year	504.00
As at 31 March, 2019	**556.00**

(iv) Insurance and Financial Risk of Insurance Business

The principal risk the company faces under insurance contracts is that the actual claims and benefit payments or the timing thereof, differ from expectations. This is influenced by the frequency of claims, severity of claims, actual benefits paid and subsequent development of long–term claims. Therefore, the objective of the company is to ensure that sufficient reserves are available to cover these liabilities.

The risk exposure is mitigated by diversification across a large portfolio of insurance contracts and geographical areas. The variability of risks is also improved by careful selection and implementation of underwriting strategy guidelines, as well as the use of reinsurance arrangements.

Life insurance contracts and investment contracts with and without DPF

Ind AS 104 requires products offered by the Insurance Company to classify them in Insurance Contract and Investment Contract. Each contract needs to be classified in insurance contract and investment contract based on the risk they carry.

A contract would be an insurance contract and investment contracts with DPF if the benefit payable on death is higher by:

at least 5% of the fund value at any time during the life on the contract for unit linked products, or

at least 5% of the premium at any time during the life of the contract for other than unit linked products

All other contract are categorised as Investment contracts.

For contracts with DPF, the participating nature of these contracts results in a significant portion of the insurance risk being shared with the insured party.

The main risks that the company is exposed to are as follows:

i) Persistency risk – risk of loss arising due to policyholder experiences (lapses and surrenders) being different than expected

ii) Mortality risk – risk of loss arising due to policyholder death experience being different than expected

iii) Morbidity risk – risk of loss arising due to policyholder health experience being different than expected

iv) Longevity risk – risk of loss arising due to the annuitant living longer than expected

v) Investment return risk – risk of loss arising from actual returns being different than expected

vi) Expense risk – risk of loss arising from expense experience being different than expected

vii) Product and pricing risk – risk of loss due to incorrect pricing or not adhering to the product regulations or higher payouts due to ambiguity in terms and conditions

Notes forming part of the consolidated financial statements

viii) Reinsurance risk – The Company enters into reinsurance agreements in order to mitigate insurance risk. However, this leads to default risk from the reinsurer at the time of claim payment or also concentration risk if all the risk is insured to one reinsurer.

ix) Concentration risk – The Company faces concentration risk by selling business to specific geography or by writing only single line business etc.

Control Measures

The actuarial department has set up systems to continuously monitor the company's experience with regard to parameters like policy lapses, premium persistency, maintenance expenses and investment returns. The underwriting team, with actuarial guidance, has set in place processes and procedures to review proposals. Some products offered by the company also have an investment guarantee. The company has set aside adequate reserves to cover this risk.

Further, the possible financial effect of adverse mortality and morbidity experience has been reduced by entering into reinsurance agreements with multiple reinsurers. The company has entered into a separate agreement with reinsurers to cover the catastrophic risks under individual and group business.

A further element of managing risk is to limit the exposure to individual segments of the population. In essence, being over-represented in any population segment will increase the variance of the company's experience, and so there are advantages to diversifying across all relevant population segments, at least until data is available to confirm which segments can be expected to have relatively favourable experience. At the present stage in the company's development, the focus is on building new distribution and so geographical diversification is actively taking place.

43. Fair value measurement

A Valuation principles and governance

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction in the principal (or most advantageous) market at the measurement date under current market conditions (i.e., an exit price), regardless of whether that price is directly observable or estimated using a valuation technique. In order to show how fair values have been derived, financial instruments are classified based on a hierarchy of valuation techniques.

The Company's fair value methodology and the governance over its models includes a number of controls and other procedures to ensure appropriate safeguards are in place to ensure its quality and adequacy. All new product initiatives (including their valuation methodologies) are subject to approvals by various functions of the Company including the risk and finance functions. The responsibility of ongoing measurement resides with the business and product line divisions."

B Financial instruments by fair value hierarchy

"All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1: Inputs that are quoted market prices (unadjusted) in active markets for identical instruments.
- Level 2: Inputs other than quoted prices included within Level 1 that are observable either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: Inputs that are unobservable. This category includes all instruments for which the valuation technique includes inputs that are not observable and the unobservable inputs have a significant effect on the instrument's valuation.

For the purpose of fair value disclosures, the Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

The following table shows an analysis of financial instruments recorded at fair value by level of the fair value hierarchy:

As at 31 March, 2019

C Valuation techniques

Asset Classification	Valuation
Equity instruments	Listed equity shares are valued at fair value, being the last quoted closing price on NSE and in case the same is not available, then on BSE.
Preference shares	Listed preference shares to be valued at fair value, being the last quoted closing price on NSE and in case the same is not available, then on BSE.
Government Securities	The Government Securities and Special Bond / Oil Bond issued by Government of India are valued at prices (Gilt Values) obtained from CRISIL
State Government Bonds	State Government securities are valued at prices (SDL Values) obtained from CRISIL
Reverse Repo	Valued at cost plus interest accrued on reverse repo rate
Discounted Securities (Treasury Bills, Commercial Papers, Certificates of Deposit)	Valued at accreted cost on Straight line till the beginning of the day plus the difference between the redemption value and the cost spread uniformly (straight line method) over the remaining maturity period of the instruments. The income shall be recognized as discount accrued.

Notes forming part of the consolidated financial statements

Asset Classification	Valuation
Fixed Deposits	Valued at cost plus interest accrued on agreed coupon rate
Infrastructure Investment Trusts	Valued at Market Value or latest NAV published by trust, in case the market value is not available for last 30 days.
Additional Tier-1 bonds	Valued on the basis of values generated by bond valuer based on matrix released by Credit Rating Information Services of India Limited (CRISIL) on daily basis.
Mutual Fund	Valued at the previous day's Net Asset Value (NAV)
Alternate Investment Funds	Valued at Net Asset Value (NAV) if available or historical Cost less diminution in value of investments.

Valuation methodologies of financial instruments not measured at fair value

Short-term financial assets and liabilities:

For financial assets and financial liabilities that have a short-term maturity (less than twelve months), the carrying amounts, which are net of impairment, are a reasonable approximation of their fair value. Such instruments include: cash and balances, Trade receivables, balances other than cash and cash equivalents, Security deposit, Policy loans trade payables and other financial liabilities. Such amounts have been classified as Level 2 on the basis that no adjustments have been made to the balances in the balance sheet.

Financial asset at amortised cost

The fair values financial of held-to-maturity investments are estimated using a discounted cash flow model based on contractual cash flows using actual or estimated yields and discounting by yields incorporating the counterparties' credit risk

44. Derivative financial instruments

In accordance with the IRDAI master circular for Investment Regulations, 2016 allowing insurers to deal in rupee denominated interest rate derivatives, the Company has Board approved policy covering various aspects related to functioning of the derivative transactions which are undertaken to mitigate interest rate risk as per the hedge strategy, thereby managing the volatility of returns from future fixed income investments, due to variations in market interest rates.

The Company has Guaranteed products where the returns to the policy holders are fixed and the Company is exposed to interest rate risk on account of investment from receipt of subsequent premiums and sum of interest and maturity from investment made out of premiums received.

The Company has during the year, as part of its Hedging strategy, entered into Interest rate swaps (IRS) transactions to hedge the interest rate sensitivity for highly probable forecasted transactions as permitted by the IRDAI circular on Interest Rate Derivatives.

Notes forming part of the consolidated financial statements

An IRS transaction is that whereby the Company receives at a pre-determined fixed rate and pays a floating rate to the bank based on the underlying index. In accordance with the Regulations, the Company has executed International Swaps and Derivatives Association (ISDA) master agreements and two way Credit Support Annexure (CSA) with the banks. The Company uses Value at Risk (VAR) to measure and monitor risk of its derivatives portfolio. Derivatives are undertaken by the Company solely for the purpose of hedging interest rate risks on account of following:

a. Reinvestment of maturity proceeds of existing fixed income investments;

b. Investment of interest income receivable; and

c. Expected policy premium income receivable on insurance contracts which are already underwritten in Life and Pension & General Annuity business.

The table below shows the fair values of derivative financial instruments recorded as assets or liabilities together with their notional amounts.

The notional amounts indicate the value of transactions outstanding at the year end and are not indicative of either the market risk or credit risk.

A) Amount outstanding and Mark to Market values

(Rs. In lakhs)

Particulars	At March 31, 2019	At March 31, 2018	At April 1, 2017
	Interest rate derivatives	Interest rate derivatives	Interest rate derivatives
Cash Flow Derivatives			
1 Derivatives (Outstanding Notional Amount)	1,187,173.95	895,633.00	6,830.76
2 Derivatives(Average Notional Amount)	159,577.67	111,307.62	
3 Marked to market positions			
a) Asset (+)	6,021.01	3.90	51.81
b) Liability (-)	(11.06)	(2,617.70)	(858.66)
4 Credit exposure			
Current Credit Exposure	6,021.01	(2,613.80)	(807.00)
Potential Future Credit Exposure	23,304.85	18,590.59	14,748.00

B) Benchmark wise derivative position

S.No.	Nature of the Derivative Contract	Benchmark	No of Deals	Notional amount of Derivative Contract o/s at the beginning of the Year	Fresh derivative contracts/ position taken during the Year	Derivative contracts/ positions terminated/ matured/ expired during the Year#	Notional amount of Derivative Contract o/s at the end of the Year
1	Interest Rate Swaps (IRS)	MIOIS/ MIBOR*	50.00	895,633.00	322,996.61	31,455.66	1,187,173.95

*The Tenure of the swaps when placed are for maximum 10 years
Includes matured notional legs of derivative contract

Notes forming part of the consolidated financial statements

C) Counterparty Wise derivative position

S.No.	Counterparty	Notional of Derivative Contract o/s	Average Notional of Derivative	Current Credit Exposure	Potential Future Credit Exposure
1	HSBC Bank	564,477.33	75,733.40	2,471.65	11,186.94
2	CITI Bank	579,562.30	78,452.48	3,319.49	11,185.30
3	AXIS Bank	13,515.76	1,689.47	-	249.99
4	JP Morgan	29,618.55	3,702.32	229.87	682.61

D) Derivative designated as hedging instruments

a) The impact of the hedging instruments on the balance sheet is, as follows
31-Mar-19

Derivative financial instruments	Notional amount	Carrying amount	Line item in the statement of financial position	Change in fair value used for measuring ineffectiveness for the period
Interest Rate Swap	1,187,173.95	6,009.95	Derivative Financial Asset/ Liability	8,623.75

31-Mar-18

Derivative financial instruments	Notional amount	Carrying amount	Line item in the statement of financial position	Change in fair value used for measuring ineffectiveness for the period
Interest Rate Swap	895,633.00	(2,613.80)	Derivative Financial Asset/ Liability	(1,806.80)

b) The impact of hedged items on the balance sheet is, as follows:
31-Mar-19

Derivative financial instruments	Change in fair value used for measuring ineffectiveness	Cash flow hedge reserve	Cost of hedging
Interest Rate Swap	8,654.70	6,023.15	-

31-Mar-18

Derivative financial instruments	Change in fair value used for measuring ineffectiveness	Cash flow hedge reserve	Cost of hedging
Interest Rate Swap	(1,818.70)	(2,630.21)	-

Notes forming part of the consolidated financial statements

c) The effect of the cash flow hedge in the statement of profit or loss and other comprehensive income is, as follows:

31-Mar-19

Derivative financial instruments	Total hedging gain / (loss) recognised in OCI	Ineffectiveness recognised in profit/ (loss)	Line item in the statement of profit or loss	Cost of hedging recognised in OCI	Cost of hedge reclassified from OCI to profit or loss	Line item in the statement of profit or loss
Interest Rate Swap	8,653.36	1.34	N/A	-	-	N/A

31-Mar-18

Derivative financial instruments	Total hedging gain / (loss) recognised in OCI	Ineffective-ness recognised in profit/(loss)	Line item in the statement of profit or loss	Cost of hedging recognised in OCI	Cost of hedge reclassified from OCI to profit or loss	Line item in the statement of profit or loss
Interest Rate Swap	(1,818.18)	(0.52)	N/A	-	-	N/A

45. First-time adoption of Ind AS

(A) Reconciliation of total equity as at 31 March, 2018 and 1 April, 2017

(Rs. in lakhs)

Particulars	Notes	As at 01.04.2017	As at 31.03.2018
Total equity (including non-controlling interest) as reported under previous GAAP		**308,362.62**	**338,260.13**
Effect of liability towards written put options to non-controlling interest	(a)	(80,457.29)	(65,312.23)
Fair value change on financial assets carried at Fair Value Through Profit or Loss	(c)	394.84	1,141.44
Effect of recognising employee stock options and phantom stock options cost at fair value	(e)	(168.45)	(305.47)
Provision on investment provided based on expected credit loss model	(d)	(1.38)	(33.31)
Fair value change on financial assets carried at Fair Value Through Other Comprehensive Income	(c)	2,787.76	731.77
Provision on investment carried at Fair Value Through OCI provided based on expected credit loss model reclassified to profit or loss	(c, d)	0.91	1.41
Effect of reclassification of cash flow hedge reserve	(g)	812.50	2,630.91
Effect of measuring financial instruments at amortised cost	(b)	-	1.03
Effect of change in shareholding without loss of control		-	(13,382.61)
Deferred tax on the above adjustments	(f)	(434.19)	(201.39)
Deferred tax on undistributed earnings	(f)	(2,500.00)	(3,352.55)
Total adjustments to equity (including non-controlling interest)		**(79,565.30)**	**(78,081.00)**
Equity as reported under Ind AS (including non-controlling interest)		**228,797.32**	**260,179.13**

Notes forming part of the consolidated financial statements

(B) Reconciliation of total comprehensive income for the year ended 31.03.2018

(Rs. in lakhs)

Particulars	Notes	Year ended 31.03.2018 (Latest period presented under previous GAAP)
Net Profit after tax as reported under previous GAAP (including non-controlling interest)		**45,051.02**
Adjustments:		
Effect of fair value of investments in mutual funds	(c)	140.53
Effect of measuring financial instruments at amortised cost	(b)	1.03
Effect of recognising employee stock options and phantom stock options cost at fair value	(e)	(1,541.73)
Effect of recognising actuarial (gain)/loss on employee defined benefit liability under other comprehensive income	(h, i)	22.71
Effect of fair value of financial instrument carried at Fair Value Through Profit or Loss (FVTPL)	(c)	606.26
Provision on investment provided based on expected credit loss model	(d)	(31.92)
Deferred tax on above adjusments	(f)	(63.88)
Net Profit after tax as per Ind AS (including non-controlling interest)		**44,184.02**
Fair value change on financial assets carried at fair value through other comprehensive income	(c)	(2,055.93)
Provision on investment carried at fair value through other comprehensive income provided based on expected credit loss model reclassified to Profit or loss	(c)	0.60
Effect of recognising actuarial (gain)/loss on employee defined benefit liability under other comprehensive income	(h, i)	(22.71)
Deferred tax on above adjustments	(f)	296.38
Total comprehensive income under Ind AS (including non-controlling interest)		**42,402.36**

Notes to the reconciliation items:

(a) **Gross obligation on put options**

The Company has entered into a put option arrangement relating to equity shares of Max Life Insurance Company Limited ('MLIC") executed during the year ended March 31, 2016, amongst the Company, Axis Bank Limited and Mitsui Sumitomo Insurance Company Limited. As per the arrangement, the Company has to settle such liability by payment of cash upon exercise of option. As required under Ind AS, put option granted to non-controlling interest is initially recognised in the consolidated financial statements by the Group as a financial liability at the fair value of the amount that may become payable upon exercise of option and is adjusted against the shareholders' equity on 01 April, 2017 (date of transition). Under previous GAAP, these were not required to be recognised.

During the year ended March 31, 2018, changes on subsequent measurement of the aforesaid liability amounting Rs. 187.76 lakhs has also been recognised in the shareholders' equity pursuant to the Group's choice of the accounting policy explained in Note 2.21.

(b) **Loans at amortised cost**

Under previous GAAP, Loans were accounted for at their undiscounted nominal values. Under IndAS, these have been accounted for at amortised cost method by discounting the cash flows using effective interest rates.

Notes forming part of the consolidated financial statements

(c) **Fair value of Financial assets**

Under Indian GAAP, the Company accounted for long term investments in Government securities and debt securities whose business model is not to hold till maturity as investment measured at cost less provision for other than temporary diminution in the value of investments. Under Ind AS, the Company has designated such investments as FVOCI investments. Ind AS requires FVOCI investments to be measured at fair value. At the date of transition to Ind AS, difference between the instruments fair value and Indian GAAP carrying amount has been recognised as a separate component of equity, in the FVOCI reserve, net of related deferred taxes.

Under Indian GAAP, the Company accounted for long term investments in Government securities, debt securities, equity instruments, Alternative investment fund, Additional Tier 1 Bonds and preference for which investment is not solely for the purpose of payment of principal and interest as investment measured at cost less provision for other than temporary diminution in the value of investments. Under Ind AS, the Company has accounted such investments as FVTPL investments. Ind AS requires FVTPL investments to be measured at fair value. At the date of transition to Ind AS, difference between the instruments fair value and Indian GAAP carrying amount has been recognised as a gain/ loss in statement of profit and loss.

(d) **Expected credit loss on investment**

Under Ind AS, impairment allowance has been determined based on Expected Loss model (ECL). Due to ECL model, the Company impaired its investment classified as FVOCI and amortised cost. Under Indian GAAP, provision on investment was made basis permanent diminution of investment.

(e) **Fair valuation of ESOP and PSP**

For ESOPs, Under previous GAAP, the cost of equity settled employee share-based payments was recognised using the intrinsic value method. Under Ind AS, the cost of equity-settled employee share-based payments are recognised based on grant date fair value of options. Accordingly, the incremental difference between fair value and intrinsic value of options has been accounted for as employee benefit expenses. The opening impact of this difference has been adjusted in the opening reserves.

For PSPs, Under previous GAAP, the Company was providing liability for estimated cash requirement for settlement of PSPs on the basis of Fair Market Value of equity shares. Under Ind AS, the liability is recognised at the fair value of the PSPs, by applying an appropriate option pricing model.

(f) **Deferred Tax**

Indian GAAP requires deferred tax accounting using the income statement approach, which focuses on differences between taxable profits and accounting profits for the year. Ind AS 12 requires entities to account for deferred taxes using the Balance Sheet approach, which focuses on temporary differences between the carrying amount of an asset or liability in the Balance Sheet and its tax base. The application of Ind AS 12 approach has resulted in recognition of deferred tax on new temporary differences relating to various transition adjustments which are recognised in correlation to the underlying transaction either in retained earnings as a separate component in equity.

(g) **Cash flow hedge reserve**

Under previous GAAP, cash flow hedge reserve was the part of other equity. Under Ind AS, this is shown as under financial liabilities.

(h) **Gain/loss on re-measurement of net defined benefit liability**

Under previous GAAP, there was no concept of other comprehensive income and actuarial gains and losses were accounted for in Statement of Profit and Loss. Under Ind As, actuarial gain or losses are accounted for as other comprehensive income.

Notes forming part of the consolidated financial statements

(i) **Other Comprehensive Income**

Under Indian GAAP, the Group has not presented other comprehensive income (OCI) separately. Hence, it has reconciled Indian GAAP profit or loss to profit or profit or loss as per Ind AS. Further, Indian GAAP profit or loss is reconciled to total comprehensive income as per Ind AS.

46. Investment Property

Information regarding income and expenditure of Investment property

(Rs. In lakhs)

	Year ended 31.03.2019	Year ended 31.03.2018
Rental income derived from investment properties	1,216.00	219.00
Direct operating expenses (including repairs and maintenance) generating rental income	(106.00)	(21.00)
Direct operating expenses (including repairs and maintenance) that did not generate rental income	-	-
Profit arising from investment properties before depreciation and indirect expenses	**1,110.00**	**193.00**
Less – Depreciation	376.00	38.00
Profit arising from investment properties before indirect expenses	**734.00**	**155.00**

The Company's investment properties consist of two commercial properties in India.

As at March 31, 2019 and March 31, 2018, the fair values of the properties are Rs. 21,950.00 lakhs and Rs. 2,290.00 lakhs respectively. Valuation with respect to property bought in earlier year is based on valuations performed by CBRE, an accredited independent valuer. CBRE is a specialist in valuing these types of investment properties. Income Capitalisation model has been applied for valuation.

Reconciliation of fair value:

(Rs. In lakhs)

	Commercial properties	Total
Opening balance as at April 1, 2017	**2,279.00**	**2,279.00**
Fair value difference	11.00	11.00
Purchases	-	-
Closing balance as at March 31, 2018	**2,290.00**	**2,290.00**
Fair value difference	211.00	211.00
Purchases	19,449.00	19,449.00
Closing balance as at March 31, 2019	**21,950.00**	**21,950.00**

Description of valuation techniques used and key inputs to valuation on investment properties:

Investment properties	Valuation technique	Significant unobservable Inputs	Range (weighted average) 31-Mar-19	Range (weighted average) 31-Mar-18
Office properties	Income capitalisation approach (refer below)	Estimated rental value per sq. per month	Rs. 40 - Rs. 45	Rs. 43 - Rs. 45
		Security Deposit (No. of months rental)	6	6
		Interest on deposit	7.00%	7.00%
		Property tax, insurance and others	4.00%	4.00%
		Yield rate	6.50%	7.10%

Notes forming part of the consolidated financial statements

Income Capitalization Method involves capitalizing a "normalized" single - year net income estimate by an appropriate yield. This approach is best utilized with stable revenue producing assets, whereby there is little volatility in the net income.

The company has no restriction on the realisability of its investment properties and no contractual obligations to purchase, construct or develop investment properties or for repairs, maintenance and enhancements

47. Details of dues to micro and small enterprises as defined under the MSMED Act, 2006

(Rs. In lakhs)

Particulars	As at 31.03.2019	As at 31.03.2018	As at 01.04.2017
(i) The principal amount remaining unpaid to any supplier	97.90	33.90	-
(ii) Interest due thereon remaining unpaid at the end of the year	-	-	-
(iii) The amount of interest paid along with the amounts of the payment beyond the appointed day	-	-	-
(iv) The amount of interest due and payable for the year	-	-	-
(v) The amount of interest accrued and remaining unpaid at the end of the year	-	-	-
(vi) The amount of further interest remaining due and payable even in the succeeding years, until such date when the interest dues above are actually paid for the purpose of disallowance of a deductible expenditure under section 23 of the Micro, Small and Medium Enterprises Development Act, 2006	-	-	-

Dues to Micro and Small Enterprises have been determined to the extent such parties have been identified on the basis of information collected by the Management. This has been relied upon by the auditors.

48. Corporate Social Responsibility (CSR)

As per Section 135 of the Companies Act, 2013, the Group has provided for & spent Rs 1,264.00 lakhs (31 March, 2018: Rs. 1,173.87 lakhs) on various CSR initiatives, during the year, which are as given below:

(Rs. In lakhs)

CSR Project/Activity	Sector in which project is covered	Amount Spend	
		Year ended 31.03.2019	Year ended 31.03.2018
Village Adoption	Rural Development	316.80	347.70

51. The Group did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.

52. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company.

53. The Company is primarily engaged in the business of making business investment in its subsidiaries. The investments (financial assets) and dividend income (financial income) on the same has resulted in financial income to be in excess of 50% of its total income and its financial assets to be more than 50% of total assets. The Company is of the view supported by legal opinion that the Company is a 'Core Investment Company' ('CIC') and does not meet the criteria for Systemically Important Core Investment Company ('CIC-SI') as laid down in the CIC Master Circular dated 01 July, 2015. Hence, registration under Section 45-IA of the Reserve Bank of India Act, 1934 is not required.

54. Payment to auditor (excluding GST/Service tax) (included in legal and professional)

(Rs. In lakhs)

Particulars	Year ended 31.03.2019	Year ended 31.03.2018
To statutory auditor:		
For audit	18.00	18.00
For other services	5.00	5.00
Reimbursement of expenses	1.09	1.47
Total	**24.09**	**24.47**

55. During the year, the Company has incurred finance cost aggregating to Rs. 2,724.62 lakhs towards underwriting fee and arranger's fee in respect of firm commitments made by certain lenders to enable the Company to provide its portion of shareholders' contribution for a potential acquisition opportunity pursued by its subsidiary company. However, subsequently the subsidiary company decided not to pursue the said acquisition opportunity and hence no fund raising was done by the Company. As the Company has not accessed any public funds, it continues to be a non Systemically Important

Notes forming part of the consolidated financial statements

Core Investment Company under the Non-Banking Finance Company (NBFC) rules as defined under the Reserve Bank of India Act, 1934.

56. The Company has entered into a put option arrangement relating to equity shares of Max Life Insurance Company Limited ('MLIC") executed during the year ended March 31, 2016, amongst the Company, Axis Bank Limited and Mitsui Sumitomo Insurance Company Limited. As per the arrangement, the Company has to settle such liability by payment of cash upon exercise of option. As required under Ind AS, put option granted to non-controlling interest is initially recognised in the consolidated financial statements by the Group as a financial liability at the fair value of the amount that may become payable upon exercise of option and is adjusted against the shareholders' equity on 01 April, 2017 (date of transition).

As per the terms of the above arrangement, the Company has partially settled its put option obligation during the year ended March 31, 2018 and March 31, 2019 amounting to Rs. 15,332.82 lakhs and Rs. 16,536.63 lakhs respectively. In the absence of any mandatorily applicable accounting guidance, the Company has elected an accounting policy to recognise changes on subsequent measurement of the liability in shareholders' equity.

57. The consolidated Ind AS financial statements were approved for issue by the Board of Directors on 28 May, 2019.
